CUS. SMITH,

WHOLESALE AND RETAIL

GROCER,

The Oldest Grocer in Des Moines.

I am better than ever prepared to meet the wants of the public. My stock in every department is large, and you will find no better or more varied assortment of

Staple and Fancy Groceries

in any establishment in the Northwest. I shall, in the future, as I have in the past, endeavor to maintain my reputation for keeping good goods, and dealing squarely with all, both great and small.

Goods Always Fresh, as we Move Them Quickly.

Be sure to drop in and examine our goods and get our prices.

You shall receive courteous treatment, whether you want to buy or not.

Do not think, as you come to the door and see the house crowded, that you cannot receive attention. With a full set of attentive and experienced salesmen, you will be promptly attended to. So don't be afraid, but step right in. We guarantee to save you money if you buy.

305 Walnut, and 308 and 310 Third Street,

DES MOINES, - IOWA.

PREFACE.

The publishers take pleasure in presenting to the citizens, this, their tenth volume, of the Des Moines City DIRECTORY; and trust it may meet with approval. The city has been thoroughly and faithfully canvassed, every residence and place of business having been visited, and neither care nor expense has been spared to make the work as reliable as possible.

The first of January, 1884, as ascertained by the canvass, we had 11,816 families, which, estimating $3\frac{1}{2}$ to the name (and this has been found by actual count to be the average), gives us a population of 41,365, indicating a most healthy growth, as the census of 1880 gave our population at 22,696.

The DIRECTORY contains a review of the resources and industries, trade and commerce, and the various interests of the city, a complete resident and business directory, a full list of the churches, educational institutions, orders and societies, the names of all residents of our suburban towns, also cards of the leading, enterprising business houses of Des Moines.

The rapid growth of the city necessitates the publication of the DIRECTORY every year, hence we shall hereafter, issue it annually.

To all who have so kindly assisted us in procuring the information, and to those who have so liberally supported the work by their subscriptions and advertisements, we extend hearty thanks.

DES MOINES

IOWA'S CAPITAL AND METROPOLIS.

HER RESOURCES AND INDUSTRIES—BUSINESS AND COMMERCIAL IMPORTANCE—RAILROADS—COAL MINES—AND THE SUPERIOR ADVANTAGES AS A COMMERCIAL AND MANUFACTURING CENTER—THE RAPID GROWTH—POPULATION—TRADE STATISTICS—AND IMPROVEMENTS FOR 1883, ETC.

GROWTH AND POPULATION.

Great as was the growth of our city in 1882, the improvement for 1883 far surpassed it, as well as that of any previous year in our history, and presents a record which no city of twice its population can equal. The array of facts and figures relative to the progress of Des Moines, is marvelous, and our people just begin to realize the wondrous advance we are making toward the foremost rank among the cities of the Union. The feeling of pride will be shared by all our citizens who have labored to make the city what it is, and who have advertised to the world our superior advantages, which has attracted the attention of the entire country, giving us a reputation for energy and business activity, and making Des Moines the theme of comment almost everywhere.

This is the necessary result of a combination of favorable circumstances, of which our wide awake, enterprising citizens have taken advantage, and which have made us the metropolis of our glorious common-wealth. Our growth in the future is assured. This city is to-day the greatest railroad center west of the Mississippi river, whose lines of road extending in every direction, are opening up new territory whose supply depot must be Des Moines. Its growth is but just begun, and the

INVESTMENT COMMITTEE.—P. M. Casady, Samuel Merrill, Louis Harbach.

possibilities of the future can hardly be calculated, while the most sanguine scarcely realize the rapid advances being made in transportation facilities, trade, commerce, manufacturing, mining and other industries, which are simply increasing in the same ratio as the country tributary, and there is no city in the United States with a greater extent of rich and rapidly developing country surrounding it, as there is no city in the country with more natural advantages and so few disadvantages.

The first survey of the town was made July 8, 1846. On the 22d day of September, 1851, the citizens voted to have it incorporated as a town, and articles of incorporation were adopted by the people on the 8th day of October, 1851. The first election occurred October 20th of the same year. This was ratified by the Legislature in 1853, and in 1854 an act was passed by which Des Moines became the capital of the State. In 1857, the archives of the State were removed here from Iowa City and deposited in the new State House. During the same year, also, Des Moines was incorporated as a city.

The following figures demonstrate the advance in population made by Des Moines; in 1850, the town contained 502 inhabitants; in 1860, 3,965; in 1870, 12,035; in 1875, 15,782, in 1880, 22,696; and to-day we claim a population, January, 1884, of 40,000. Des Moines is the largest city in Iowa, by many thousands, and we doubt not the next State census, 1885, will give between 45,000 and 50,000; and the next United States census will show her population to be at least 75,000 to 100,000.

The progress made during the year 1883, is a matter of pride to our citizens. New railroads were added to our excellent transportation facilities, new factories and business houses were established in our midst, and trade in all departments was very prosperous. Numerous elegant and commodious buildings were erected, for business or residence, and five thousand strangers from abroad located in our city.

During the past year the improvements were greater than during any year in our previous history. The orders received by our manufacturers and wholesale merchants last year exceeded their capacity to meet the demand, and there is urgent need of largely increased facilities for trade, and present indications warrant us in saying that more industries will be added to the business interests of the city, and our trade and commerce will be more widely extended during 1884. In proportion to the growth and prosperity in business circles, are the improvements in the residence portion of the city. Schools and col-

204 FIFTH ST., DES MOINES, IOWA.

leges are enlarging, and in all departments of the city's life there is a steadily increasing development.

Des Moines is in the center of the richest agricultural region in America, populated by as energetic, wide-awake, enterprising and thriving people as exist on the face of the globe. The city is remarkably healthy, having an invigorating atmosphere, which is one of the inducements to strangers to locate here for a permanent home. There are numberless inviting sites for residences, surrounded by native groves, and overlooking the adjacent country and the business portion of the city, and residence lots, though in good demand, can be obtained at reasonable rates, as well as lots for business or manufacturing purposes.

LOCATION AND SURROUNDINGS.

Des Moines is most beautifully situated in a remarkably picturesque locality, surrounded by gently rising bluffs, forming an amphitheatre of grand proportions, as if intended, by nature, as the site for a great city, the home of a happy and prosperous people. The view from the top of our new Capitol, is grand beyond description, with hill and dale dotted with a wealth of forest whose drapery of green, interspersed at intervals with farm houses and villages lends an indescribable charm to the landscape.

Two rivers, six hundred feet wide, spanned by eight handsome, substantial bridges, unite within the corporate limits of the city, and from the confluence of these rivers, on either side, stretches a beautiful plateau, skirted by bluffs, rising by gentle acclivities on all sides, affording fine residence sites, while the level portion is extensive enough to accommodate the business of a large city.

In area Des Moines includes twelve square miles and taking into consideration its location, its distance from any overshadowing city, its superior transportation facilities and the great natural advantages it has, in the inexhaustible supplies of coal for cheap motive power, and also its two rivers with the milling power to turn thousands of wheels, and its fifteen railroads, furnishing cheap transportation to all parts of the country, it is plain that it is destined to be a city of power and eminent rank.

The county of Polk, of which Des Moines is the seat of government was organized under a law of the Territorial Legislature January 17, 1846, and contains an area of 352,500 acres. It had at that time a population of about three hundred. The population of the country as given by the United States census in June, 1880, was 42,395, but the rapid development of its ag-

ricultural and mineral resources, together with increased facilities in transportation, manufacturing and general business in its cities and towns, has led to a large increase in its population, which is now estimated at about 60,000. The surface of the country is gently undulating, and is beautifully diversified with timbered streams and open prairies. The Des Moines and Racoon Rivers are the principal water courses, and the alternation of forest and prairie, hill and vale, presents beautiful scenery in various portions of the country. The principal varieties of timber are oak, walnut, maple, elm, hickory, linn and wild cherry. Detached groves are located here and there throughout the country, which relieve and beautify the prairie. The soil is a rich black loam, unsurpassed in fertility in any part of the country, producing abundant harvests to reward the labor of the farmer. The atmosphere is dry and invigorating, and the climate is salubrious, and well adapted to the growth of fruits, both large and small, which are produced in abundance. The mineral resources are rich, and both limestone and sandstone, as well as mineral paint are found. Potter's clay is found in abundance, also fire clay, and excellent clay suitable for the manufacture of the finer grades of brick and terra cotta. Bituminous coal of excellent quality exists in inexhaustible quantities, there being thirty mines now operated in the county. Tracts of unimproved land can yet be purchased upon reasonable terms, and the country is rapidly becoming populated by an enterprising class of farmers.

Never had a city fairer location or finer promise, and Des Moines claims for herself indisputable pre-eminence among the cities of Iowa. This claim, however warmly contested in the past by other cities, is now conceded by all, having been unquestionably decided in her favor by the census of 1880, and since then Des Moines has advanced at least ten thousand ahead of any other city, and is becoming more and more the center of Iowa life. Our central location, and our unrivalled railroad system, have contributed largely to this growth and prosperity.

A STRANGER'S INQUIRY.

The importance and rank of Des Moines as a railroad center is beginning to attract national attention. Below is a letter from Columbus, Ohio, making inquiries as to the facts, which shows how manufacturers and wholesale dealers are being attracted to Des Moines as a superior point for distribution and comparing it with Indianapolis, Ind. We do not give the name of the writer as he requests that no publicity be given to his identity, and any one can see good reasons for this, until he has

definitely decided on his plans. He gives a good outline of Des Moines and its advantages, and shows that he has been inquiring into the city's merits pretty closely:

"Ed. State Register, Des Moines. I see it stated on the authority of the *Register* that Des Moines has eleven railroads—or eleven railroads with tracks of their own running into the city, and two other roads reaching the city over the tracks of other lines. This is an astonishing showing for so young a city as Des Moines, and I wish you would give the particulars and the names of the roads. If you have such a railroad center as that in such a State as Iowa—which is one of the best half dozen States in the Union as a buyer of goods and machinery—you should let the world know more about it. For, with the location of roads, Des Moines, in so rich a State, and with so many railroads to distribute products, I know of no point which could be superior to it as a manufacturing and wholesaling center. Add to these things the other great fact, which I have learned from a mining paper printed at New York, that Des Moines has such an abundance of coal of its own, that manufacturers hardly take fuel for motive power into account as an expense, and your city does not itself know the great future it has before it. I know of no city, outside of the large ones, to equal it. For, if you have eleven and practically thirteen railroads, you have as many as Indianapolis, while Iowa, as a State, is so much richer than Indiana, with so much more enterprising people, that Des Moines has far better backing in its State than Indianapolis has. Besides, Indianapolis is near to Cincinnati and Chicago, while Des Moines is practically in a field of its own. Outside attention was first called to Des Moines conspicuously by the fact shown by the Federal census, that it jumped between 1870 and 1880 from the fifth city in the State to the first. This showed at once the rapid development of Iowa, the indication of its future commercial and financial center as a State, and the superiority of its location for a city. We have learned since that Des Moines has improved even faster in population and manufacturing and general business since 1880 than before it, and now we hear many people, and notably many manufacturers, talking of going there to engage in business. I was told a few days ago by a 'traveling man,' who knows Indiana like a book, that he knew of half a dozen large manufacturing establishments in Indiana which have either gone to Des Moines or are making ready to go. We have quite a notion of establishing a branch of our factory there, with the intention of finally moving all our interests if it proves a good field.

"Will you please give the names of the railroads of Des

IMPROVEMENTS AND GENERAL PROSPERITY.

The last United States Census in which Des Moines was shown to have advanced between the years 1870 and 1880, from the fifth to the first city in Iowa, indicated the rapid development of her resources and the superiority of her location for the metropolis as well as the capital of our great commonwealth. This attracted general attention, and contributed much toward her rapid growth and general prosperity. The city has to-day more railroads than any city in the Northwest except Chicago, and five other roads are already projected with good prospects of early completion. Its location at so great a distance from Chicago and St. Louis, and other competing cities for the trade of the Northwest, is advantageous, and Des Moines is destined soon to become the greatest commercial and manufacturing center west of Chicago, east of San Francisco, as there is no location presenting greater advantages for manufacturing and wholesale business, and no city has improved so rapidly in this direction, as well as in transportation facilities. All parts of the city have been prosperous during the last few months, as there have been many fine new residences and a number of handsome, substantial and commodious business blocks erected. The city improvements, new city buildings, street paving and sewerage, are also a matter of pride to our citizens. With its beautiful scenery, fine business blocks and handsome residences, Des Moines is becoming the most beautiful, as it is one of the most healthful cities in the west. Many are now looking to Des Moines as their future business location and permanent home, as the city presents not only commercial advantages, but a most desirable place of residence, having cultured and refined society and excellent moral and educational advantages. Inquiries are often received from different portions of the country by the Secretary of our Board of Trade in regard to the advantages for manufacturing and various branches of business. We learn from our architects, and contractors and builders that the prospect is good for the erection of more new factories, business blocks and residences in 1884 than in any previous year, so that the indications for the year to come are most encouraging.

The figures given below, which have been ascertained from

a careful canvass, will enable the reader to form an idea of the improvements made during the year 1883.

| | |
|--|-------------|
| Seventy-three business houses and factories | \$1,678,650 |
| Twelve hundred and thirty-seven residences | 1,982,685 |
| Colleges, churches and public schools | 85,250 |
| Public buildings | 275,000 |
| City improvements, sewerage, paving, sidewalks, etc. | 531,557 |
| Railroads, bridges, depots, round-houses, tracks, etc. | 135,250 |
| Total | \$4,488,392 |

RAILROADS.

The growth and development of our city is to a great extent, due to its commanding position as the center of a grand system of railroads, and by means of these highways of commerce we reach the trade of a vast country, naturally tributary, and it is to our railroads more than to any other single agency that we are indebted for the growth and prosperity we have enjoyed, as they afford cheap and rapid transportation to and from the city in all directions. With constantly increasing transportation facilities and the competition which must necessarily arise, it is not strange that Des Moines is able to hold out her proud position as the metropolis and commercial center of Iowa.

August 29, 1866, the first train entered Des Moines over the Des Moines Valley road, now the Keokuk and Des Moines branch of the Rock Island. Since that time, the development of the railroad system has been rapid, placing all points in the State in almost direct communication with this city. A glance at the map shows a network of roads extending in all directions, indicating our city as the railroad center of Iowa. These lines are developing some of the richest agricultural regions of the State, and gather into Des Moines an immense and growing traffic. The facilities this system gives to the wholesale interests, manufacturing, coal mining, lumber, stock and grain shipments cannot now be fully estimated. With the increase of railway facilities, the cost of transportation has been greatly lessened, as a result of competition between the various lines. The hearty welcome that has been given in Iowa, to the movement for the establishment of more railroads, shows that our people are fully alive to the benefits to be derived from such a system, which as Des Moines roads connect with the many lines extending through the State in every direction, has been favorable to the business interests of the city. If the relief from the

high rates of transportation is to be expected from the acquisition of new railroads, Des Moines' prospects in this regard is certainly flattering. We recognize the fact, that the railway possesses an almost unlimited power for usefulness, and nothing has contributed more rapidly to our wealth and prosperity. With fourteen lines of railway, and others looking in this direction, there is every reason to believe that Des Moines will continue to attract capital and enterprise, as our transportation facilities are unsurpassed by any city of the same population in the west.

Des Moines is pre-eminently a city of railroads, and during the past two years has made such an advance in this direction as has never been known in the history of an Iowa city, and under the impetus given by the building of several new roads into the capital, our city experienced a growth in population, wealth, manufacturing enterprises and general prosperity hitherto unknown. Thus it is seen that our railroad facilities are superior to those of any other city in the State, our trade is being extended hundreds of miles in every direction, and that the roads are opening to us many new and rich portions of the country, all tributary to the trade and commerce of our city.

With the extensive network of railroads centering in our city, together with our many natural resources, the advantages for the growth and prosperity of Des Moines are almost unlimited. The main lines of road in our State, nearly all of which touch Des Moines, are among the best equipped, the most secure road-beds and the finest rolling stock in the United States, and the management rests with gentlemen of honor and experience in their business. Des Moines being characteristically a railroad center, it is expedient to include here, the following specific information regarding the roads entering the city.

CHICAGO, ROCK ISLAND AND PACIFIC.—This road entered Des Moines in September, 1867, and is one of the great trunk lines extending across Iowa, and connecting at Council Bluffs with the Union Pacific. The growth of business and commercial interests in the west, has made this road to rank among the first in the country. Their business during the past year, shows a remarkable increase, which has been advantageous not only to Des Moines but to the entire State. They have made many improvements during the past year, in their road bed, in relaying the track with steel rails, and in the extension of their road, in various branches through the State. The road is equipped with all those essentials which pertain to first-class accommodations, and the management gives evidence of the highest ability.

DES MOINES, IOWA.

KEOKUK AND DES MOINES.—This is one of the important north and south lines of the State, and was the first road built to Des Moines, entering the city in August, 1866, being then known as the Des Moines Valley road. It is now one of the principal branches of the C., R. I. & P. R. R., has been put in the best condition, and is a road of much importance to Des Moines.

DES MOINES, INDIANOLA AND MISSOURI.—This is a branch of the Rock Island; extending south from Des Moines, and is an important feeder to that road. It is probable that this line will be extended southward at no distant day, as important towns in northern Missouri are looking to a connection with Des Moines via this route.

DES MOINES, WINTERSET AND SOUTHWESTERN.—This is also a branch of the C., R. I. & P. R. R., and active measures are now in progress for the speedy extension of this road southward to a connection with the railway system of Missouri. Its business during the past year has been great, for the extent of the line, and its advantage to Des Moines is highly appreciated by our citizens.

CHICAGO, BURLINGTON AND QUINCY.—This was the first road which crossed the Mississippi river at Burlington, and is one of the great trunk lines of Iowa, as well as one of the wealthiest corporations in the west, and to-day it is unexcelled by any railroad in the world for general excellence, quantity and quality of equipment, and everything necessary for the comfort and convenience of its patrons. The line is a popular one and will always be a competing road with any and all lines entering Des Moines, giving us direct communication with St. Louis as well as Chicago.

CHICAGO AND NORTHWESTERN.—Des Moines is fortunate in this addition to her railway facilities, and this road is an active and powerful competitor for eastern and western bound passenger and freight business. It was the first of the three great trunk lines to extend its road across the State, and to connect with the Union Pacific at Council Bluffs. This is one of the great corporations of the country, and its lines extend not only where trade and commerce will at present justify, but it also acts as a pioneer in developing new territory. It has contributed also to the reduction of freights, giving our merchants the advantage of another competing eastern route. It is noted for the speed and comfort which it secures to its patrons, is under able and energetic management, and is constantly extending its field of operation.

Designs, Plans, Specifications, etc., furnished for Buildings of every description, Monuments, Furniture, etc., etc. Charge moderate and in proportion to services rendered.

DES MOINES AND FT. DODGE.—This is one of the most important north and south lines in the State, and the business of the past year shows the great advantage of the road, not only to Des Moines, but to the entire State, as it connects with the lines running east and west. This road has been of practical benefit to our city, and our citizens and business men appreciate it. The company proposes an extension of the road north, which will open trade with the pineries, and also furnish a market for the immense coal mines of Des Moines and Central Iowa.

WABASH, ST. LOUIS AND PACIFIC.—Only those persons who have given the subject careful study, can realize the importance of this road to Des Moines, not only giving us a shorter and cheaper outlet to the sea-board for our products, but also another direct and through line to St. Louis, New York and Chicago. This new outlet of transportation opens to our trade a new field of operation for our manufacturers and business men.

DES MOINES NORTHWESTERN.—This is a part of the great Wabash system, extending from Des Moines into the rich agricultural region northwest of this point through the counties of northwestern Iowa, where it is cordially welcomed as a valuable accessory to the development of that portion of the State. It is being rapidly extended into the great wheat-growing regions of Minnesota and Dakota.

ST. LOUIS, DES MOINES AND NORTHERN.—This is another branch of the Wabash line, extending north to Boone, and it is proposed to extend this line through northern Iowa and Minnesota to St. Paul. This will give a direct line from St. Louis to St. Paul via Des Moines, by means of the Wabash.

DES MOINES, OSCEOLA AND SOUTHERN.—This road opens to us a field of rich territory and adds largely to the aggregate value of network of railways. It is anticipated that this line will extend southwest to St. Joseph and Kansas City, giving us another important southwestern connection. The road is under good management and ere long will be made broad guage which will add largely to our transportation facilities.

THE WISCONSIN IOWA AND NEBRASKA has just been built into our city. This gives direct communication between Des Moines and the north-eastern portion of Iowa, and we understand it is the intention of the company to build a line from this city south-west to St. Joseph and Kansas City giving us another important line south-west as well as north-west. "The Diagonal" is making connections with the Iowa Central at Mar-

shall town, for the purpose of securing a Chicago connection for through business, and will soon be ready to take through freight at living figures. It is not improbable that in this way Des Moines is to be given its cheap Chicago freight.

If the Diagonal would put in the link from Newton to the nearest point that comes to that place,—which would only take four or five miles,—it could then have through the Central branch to Newton, one of the best of lines from Des Moines to Chicago, and it is not improbable that this may be done, and the Central of Iowa thus be brought to Des Moines.”—*State Register*.

CHICAGO, MILWAUKEE AND ST. PAUL.—This company, which we believe should have built their main line into Des Moines before this date, changed their route running north of this city, directly west, between the C., R. I. & P. R. R. and C. & N. W. R. R., but we have been informed that they intend to build a branch into Des Moines at an early date. At present their trains come into the city over, over the track of another company. From the importance to this road, of connection with the network of roads in this city, and of securing a southwestern outlet, we feel reasonably sure of this road, the present year, and we hope it may be built. This connection with the markets of Milwaukee and St. Paul is of great benefit to Des Moines.

MINNEAPOLIS AND ST. LOUIS.—This is another road connecting Central Iowa with Minneapolis and St. Paul, and the lumber regions of the north. One of the principal objects in the building of this road, was to reach the rich coal fields in this section, and to build a road from Minneapolis, through Minnesota and Iowa, to both St. Louis and Kansas City. The line south has not yet been definitely located. The trains of this road come into the city, at present, over the line of another company.

RAILWAYS IN PROSPECT.

A glance at our railway map indicates another new line from the northeast, to be known as the

LA CROSSE, IOWA AND SOUTHWESTERN.—The *State Register* in a late issue published the following: “THE CANADIAN ROAD.—Dr. J. Seaton Kelso, of Ackley, one of the first projectors of the La Crosse, Iowa & Southwestern Road, and one of its present directors, was in the city yesterday. We learn from him that the prospects of the road are good, and that the line has been definitely located from La Crosse as far Southwest as

Ackley, and all places north of that the required amount has been raised, and the line thus definitely determined. Engineers are now hunting for the best route from Ackley to Des Moines. The Directors say that the road has very fair prospect of success. President Rozene, who spent November and December in New York and who has returned there after being home for the holidays, makes encouraging reports, and believes that success and construction are right at hand."

This will be another important iron arm, and from the conversation we have had with the men connected with the project we believe the road will soon be built.

MINNESOTA, IOWA AND SOUTHWESTERN.—A company has been organized and incorporated under the law of Iowa and Minnesota for the purpose of building a railroad from LaCrescent, Minn., through to a connection at Des Moines with a proposed line to Kansas City, and thus gain a through line, from the Mississippi to the Missouri river, intersecting this State from northeast to southwest. This line will connect the great lumber producing regions of Wisconsin with the Iowa coal fields, and also the stock raising districts of Kansas and the southwest.

DES MOINES AND SIOUX CITY.—It is said at Sioux City that a company proposes to build the railroad from Des Moines to Sioux City this year—the survey for which is to be made immediately. A letter from Denison to the *Sioux City Journal* says as to the proposed line:

"Your issue of the 1st inst. proposes a route for the Sioux City & Des Moines railroad, starting up the Floyd toward LeMars, thence by way of Correctionville and Battle Creek to Des Moines. I remember seeing the profile of a line run from Des Moines to Sioux City by way of Correctionville. As talk is cheap I would like to propose a route. As the Milwaukee & St Paul folks have done nothing with their Des Moines line, take that by way of Mapleton, the forks of the Soldier, and Charter Oak, to Denison. I don't think there is any doubt but this is by far the best route attainable. It is through unoccupied territory. From Denison a route can be got nearly east to the valley of the Brush fork of Coon river, which leads directly to Des Moines. From my knowledge of your country, in starting up the Floyd, I think the streams east of it will throw the line as far north as to make it uncomfortably near the Illinois, Central and Maple Valley roads, and I think the number of cubic yards of earth to be moved will be found greater than to reach Battle Creek by way of the Missouri river bottom and Maple Valley. I don't understand that Battle Creek is a fixed point

and as we in Denison like good things, suppose you come this way. We think it would be an improvement on the next map of Iowa if it could show a line of railroad from Sioux City to Des Moines by way of Denison."

TOLEDO, OSKALOOSA AND WESTERN, is the name of a new corporation, proposing to build a line through the southern portion of Iowa. Surveys are now being made between the C. B. & Q. and C., R. I. & P. lines. Des Moines will be reached, and west of this point there will be two branches, one to Council Bluffs and the other to Kansas City.

DES MOINES, CRESTON AND KANSAS CITY.—The contracts for this new line have already been let, and it is expected that early in the spring the work of grading and laying track and building the necessary bridges will begin in earnest. This will be another good line for Des Moines. Some of Creston's best business men are at the head of it which is sufficient guarantee that the road will be a success.

BURLINGTON, OSKALOOSA AND DES MOINES.—In speaking of their new narrow guage road the Oskaloosa Telephone has the following:

"Those most likely to know inform us that the narrow guage will be built northwest of us in the spring. We understand there are three routes under discussion: One is to Newton and on northwest, another is by way of Peoria and on northwest, crossing the C. R. I. & P. at Colfax and the last one is through Pella. From Winfield the narrow guage and the Keithsburg branch of the Central run side by side and it is thought by some that the little road will continue to harrass the old C. B. & Q., which has its northwestern terminus at Newton. By invading that territory it will likewise tap the C. R. I. & P. and draw considerable business from that line. The narrow guage can compete successfully with the standard guage roads and it will pay our neighbors on the northwest to be on the lookout for the stirring little road. It is the most popular line in Oskaloosa and that popularity will increase as the road is better equipped. It is 103 miles to Burlington by the new line. Des Moines is at present the objective point, but it is expected to be extended soon in the direction of Sioux City, giving us a diagonal through the State from southeast to northwest."

Already Des Moines has railroad communication with every county in the State, and direct lines running into Nebraska, Dakota, Minnesota and Kansas, with all of which States it has a large and rapidly growing traffic, and every line projected

either north, south, east or west, is endeavoring to reach Iowa's Metropolis. We believe that the year 1884 upon which we are just entering, will show even greater improvements in railroad building than 1883, which may be enumerated prospectively as follows:

The changing of one at least and perhaps two of the three narrow guage railroads that are now here into standard guage, and with this the completion of another line between Des Moines and Minneapolis and St. Paul. The entrance of the Chicago, Milwaukee & St. Paul Road, and the investment by it of a large amount of money in improvements here—giving us the fifth of the five great trunk lines of the West. The building of the Minneapolis and St. Louis Road into Des Moines, or its admittance over the tracks of other roads, and its extension to the great coal fields near the city. The building of another Diagonal Road into Des Moines from the northwest admitting the trade of this city directly to a dozen counties now not tributary to it. The advent of the Central Railroad of Iowa, either by its own line, or by a trackage arrangement over some of the lines we now have. A standard guage railway from Des Moines to Kansas City and St. Joseph—completed and in operation by the first of January, 1885, thus admitting Des Moines directly to the railway system of the southwest. Everything is to be made ready for the widening, and for the building of the extension to St. Joseph and Kansas City, as fast as it can be done, and work in the field will be commenced as soon as the frost is out of the ground. The steel and other material have all been bought, and the company will push it forward as rapidly as it can be done. It is now intended to reach St. Joseph by September, and Kansas City by December.

UNION DEPOT.—There is growing talk of a union depot for Des Moines, and several of the roads have expressed themselves as being in favor of it. It could be easily brought about, and should be. It would be a great convenience to the public, and as great a saving to the railroads.

FAST FREIGHT LINES.

Four lines have established agencies in Des Moines, the Star Union, the Erie and Pacific Dispatch, the Great Western Dispatch, and the South Shore Line. These lines contract for freight to be delivered to New York, Boston, Philadelphia, Baltimore, Albany, and the principal eastern cities of the United States and all European points. They ship all perishable goods, such as butter, eggs, fruit, poultry, &c., in superior

refrigerator cars. The question of transportation, and of the quickest and cheapest routes, are and always will be of primary importance in connection with successful business. These agencies afford increased facilities for carrying, and impart additional vigor to trade. These lines are represented in this city by gentlemen of enterprise and recognized ability in business management.

MANUFACTURING.

It is no exaggeration to state that there is now no city in the West which has better advantages for manufacturing and wholesaling, and few as good, but there are yet many open fields of enterprise untaken. The city has grown so fast and developed so rapidly in its railroad system, that, while it has advanced remarkably in manufacturing and wholesaling, not nearly all the good chances in either of these lines have been taken up.

We are pleased to notice the progress of our home manufacturing, and our people appreciate the value and importance of this great interest. New factories are springing up and the old ones are increasing their capacity and works to meet the demand. Our great agricultural resources make this a most profitable field for manufacturing. Situated in the center of the State, in one of the richest agricultural regions of the world, where is found an inexhaustible supply of the best coal, even within the limits, as fine a water power as there is in the country, large bodies of timber along our main water courses, convenient of access to the city, and suitable for manufacturing purposes or for fuel; and having railroads leading east, west, north and south, with intermediate lines in process of construction, and in contemplation, Des Moines is the very place to which manufacturers should come. The success of the factories already established and the rapid settlement of the adjacent country, are warrants for the establishment of many more.

COAL MINING.

The coal fields of Iowa comprise an area of about 20,000 square miles, and Polk county is situated near the center, Des Moines and vicinity being the greatest mining point in the State. The coal is the best quality of bituminous, and is shown by analysis to contain, on an average, but ten parts impurities, to one hundred parts combustible matter. We have here the three great coal measures of the state, and the veins vary from three to eight feet in thickness. Des Moines is without a doubt, the very place to which manufacturers should come. Good

coal can be had for five to seven cents per bushel, the best lump coal for eight cents, and slack in great abundance and very cheap for manufacturing. Des Moines being located in the center of the great coal fields of Iowa, the mining of coal is one of the principal industries of the city. There are twenty-five mines in operation in this vicinity, employing about fifteen hundred men, and the value of the coal mined here last year was over \$1,000,000. and in quality is unexcelled by any found west of the Mississippi.

WATER POWER.

The first step to take toward becoming an important manufacturing town is to provide cheap power for the operation of machinery. A dam six hundred feet long having a fall of eight feet was built across the Des Moines river several years ago, giving a power sufficient to keep in motion large manufacturing establishments employing thousands of operatives, and to-day the only use made of this power is in the operation of a flouring mill and a saw mill at the end of the dam. The state confers upon water power improvement companies the power to condemn land for the right of way for canals, water ways, buildings and other necessary purposes, a power as ample as that exercised by railroad companies. This power presents a rare opportunity for manufacturing enterprises. The organization of a company for the purpose of building a race to increase the facilities for manufacturing is completed. By raising the dam one or two feet, which can be done under the charter, additional power can be secured sufficient to operate almost unlimited machinery. If such a company were organized, the power could be rented to manufacturers at from one-half to one-fifth the cost of steam.

CLAYS.

Clay of excellent quality for the manufacture of brick abounds in this section, which fact is apparent in the number and extent of our brick yards. Not only common brick of the best quality are manufactured in abundance, but also pressed brick. Nearly all the finest buildings in Des Moines are of brick, manufactured in this vicinity, which for durability and general excellence are unsurpassed. Fire clay also exists here, as well as potter's clay, which is found in abundance, and the products of our extensive potteries amount to thousands of dollars annually. We have two of the largest drain tile works in the State, and the product of these establishments is in great demand throughout the country, and the same is true of our artificial stone and sewerage pipe works. Clay for the manufacture

of mineral paints is also found here. It is well known that wherever bituminous coal is abundant, there also exists excellent clay suitable for making the finer grades of brick, and for terra cotta, and this is found to be the fact in this locality, this quality of clay being found here in liberal quantities.

SANDS.

Sand suitable for the manufacture of glass as well as for building purposes is found of superior quality and in great abundance near this city. By actual test, the glass manufactured from this sand has been shown to be of superior quality to that made from sand found in other States, and this with advantages possessed by Des Moines should be an inducement for the location of large glass works at this point. The sand found on the banks of our two rivers is largely used in the manufacture of artificial stone.

MANUFACTORIES.

We enumerate the leading manufactories, but many other industries are doing very profitable business and making notable advancement.

FLOURING MILLS.—While we ask home patronage for all our mechanics and manufacturers, we especially claim the same for our millers. Our mills have incurred the expense of obtaining as good machinery for cleaning wheat and for manufacturing flour as any State in the Union.

The flouring mills of Des Moines are five in number. The capacity of these flouring mills is about five hundred and fifty barrels per day, and the increased facilities for the transportation of grain from the great wheat growing districts of the Northwest, enables our millers to successfully compete with other portions of the country in the production of flour. Radical changes have been made during the past few years in the system of milling, and the result is the production of flour of the very best quality.

In addition to the foregoing, we have also a large mill for the production of oat meal, which is one of the most important industries of the city. This mill is situated between the Rock Island and the Wabash railroads, thus giving the best possible facilities for shipment, and the elevator connected with it has a capacity of 280,000 bushels of grain, while the oatmeal manufactured is of the best quality, for which orders are correspondingly large.

Office and Works:

COR. EAST LOCUST AND FIRST STS., DES MOINES, IOWA.

Moines, which number six establishments, are among our most important industries.

The work turned out by these houses is first-class, and their business last year showed a large increase over any previous year.

BOILER MANUFACTURERS.—The immense mining and manufacturing operations in Iowa, create a great demand for steam boilers, and Des Moines manufacturers receive their full share of business in supplying this demand, besides a large trade outside of the State. There are three firms engaged in the manufacture of steam boilers, and the work done by them is first-class.

PLOW FACTORIES.—The rich agricultural region about Des Moines and the large territory opened to the trade of the city by the advent of new railroads, creates an almost unlimited demand for agricultural implements of all kinds, foremost among which in importance is the plow. Three firms are engaged in the manufacture of plows, and the best of material used, together with skilled workmanship, results in the production of an implement which is unrivalled in the market.

BARBED WIRE FACTORIES.—This industry is one of the most prominent in Des Moines, even as it has become one of the most important in the United States, and the country rendered tributary to Des Moines by her numerous railroads, opens a field almost limitless in the trade in barbed wire, which is gradually superseding all other styles of farm fence. There are three companies manufacturing this staple, and the trade extends throughout most of the western States and territories.

CARRIAGE AND WAGON WORKS.—In the manufacture of fine carriages, phaetons, etc., Des Moines carriage makers stand second to none, and they manufacture any thing in their line from the most elegant carriage to the heaviest transfer wagon.

SCALE MANUFACTURERS.—The goods manufactured by the Union Scale Company of Des Moines, have an established reputation for accuracy and reliability. This company has every facility for doing first class work, and they manufacture all grades from the most delicate to the heaviest farm and railroad scales. Their work is unsurpassed by any of eastern manufacture.

FILE WORKS.—We have but one house engaged in the manufacture of files, but they do an extensive business in filling orders for jobbers, and as they use the best Ames steel, and employ only skilled workmen, the result is that the files manu-

factured by them have a reputation second to none known to the trade. Their works are operated by steam power, and the increase in their business has necessitated a corresponding increase in their facilities for manufacturing.

LINSEED OIL MILLS.—The production of linseed oil, oil cake and meal, is one of the important industries of Des Moines, and two houses are engaged in this manufacture, one of which is the largest in the State. The product of these mills is of the best quality, and well-known to the trade. The oil cake meal is extensively used for feeding stock, by dairymen, stock-raisers and others in this section, and has proven very satisfactory.

MILL FURNISHINGS.—This has become one of the most important industries of Des Moines, increasing from a comparatively small beginning a few years since to its present large proportions. Three firms are engaged in the business, and their trade is extensive, reaching out into many of the Western States and territories, and is steadily increasing.

MARBLE WORKS.—There are three firms in this city engaged in the marble and granite business, who import foreign marble and granite direct, and in American goods they buy from first hands, which enables them to duplicate eastern prices. They do an extensive business in monuments and all varieties of cemetery work, besides mantels, grates, vases, etc.

GALVANIZED IRON CORNICE.—In this line of manufacturing the work of Des Moines artisans is unsurpassed. There are three firms engaged in this industry, and the process to which the iron is subjected obviates the tendency to oxidation, and renders it especially adapted for door and window caps, dormer windows, cornice, etc., so that it has come into general use in most of the large buildings in Des Moines.

PLUMBING, STEAM AND GAS FITTING.—In a city like ours where there are gas and water works, and where so many public buildings and private residences are heated by steam, this industry is an important one. The houses representing this trade are first class, and are doing an extensive business, and some are not only extending their trade throughout the State but into the territories beyond.

SLATE ROOFING.—There is only one firm in Des Moines in this line of business, but their work is both artistic and beautiful. From a comparatively small beginning a few years since, their business has gradually increased to its present large proportions, and many of our finest buildings give evidence of the superiority of their workmanship.

PLANING MILLS.—The manufacture of sash, doors and blinds, inside finish, mouldings, etc., is an important factor in the business of the city, and engrosses the attention of three firms, whose trade is widely extended throughout a large territory of the northwest.

POTTERIES.—The superior quality of clay found in the vicinity of Des Moines for the manufacture of stoneware and tiling, as well as its great advantages as a distributing point, has induced the establishment of several works for the production of these goods. The combined annual product of these works is hundreds of thousands of gallons of ware.

SPICE MILLS.—We have one firm which is located in a spacious business block, fully equipped with the latest improved machinery, and appliances for roasting and grinding coffees, and manufacturing pure spices and baking powder. The process used at these mills of Tone Brothers insures absolute purity, while they retain the original strength, and the most pungent and valuable qualities, and from personal knowledge of their spices, coffees and baking powders, we feel warranted in the statement that for these qualities they are very popular wherever they are known. Their baking powder has been pronounced by actual test to be of the highest standard of quality in the market. Their business has increased year by year since it was established in this city.

VINEGAR AND PICKLE WORKS.—This industry is represented in Des Moines by the firm of Menig & Slater, who do a large business in this line, supplying the wholesale trade here with these commodities, as well as various kinds of table sauces. Large quantities of apples, also cucumbers and other garden products, find a ready market here for the production of vinegar, pickles, etc.

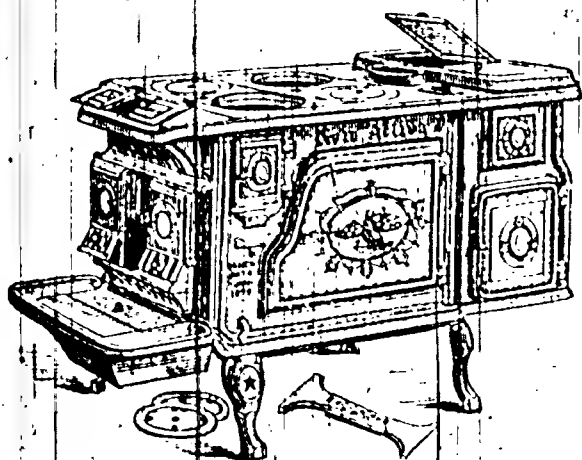

BREWERIES.—Des Moines has four breweries, which have an extensive trade not only in the city, but along the various lines of railroad leading out of Des Moines.

DISTILLERIES.—Two very large distilleries have been built in Des Moines within the last few years, which have a capacity for the consumption of nearly ten thousand bushels of corn per day, and the revenue to the government upon the product of these establishment is very large. In connection with the works are sheds of sufficient size for the accommodation of eight hundred head of cattle. Most of the alcohol manufactured here is shipped directly to foreign ports.

DYE WORKS.—Three houses in Des Moines are devoted to

the business of dying cloths. These works are operated by steam power, and the proprietors do a good business not only in custom work, but also in re-coloring shelf goods for merchants and milliners.

SHIRT MANUFACTURERS.—There are three establishments of this kind in Des Moines. These firms do all kinds of work in their line, employing a number of traveling salesmen who take orders from the trade as well as from individuals. They guarantee all work, and the trade in this line is rapidly improving and ere long will be one of the leading industries of the city.

KNITTING FACTORIES.—There is no question as to the value of knitted good as a marketable commodity, and the goods produced by the Des Moines knitting factory command a ready sale. They have all the necessary appliances for manufacturing jackets, mittens, leggings, scarfs, hosiery, underwear and all discriptions of knitted goods.

CIGAR FACTORIES.—The tobacco business in this country, from its magnitude, must be considered an important interest, and the manufacture of cigars form one of the prominent industries of Des Moines. Eight houses are devoted to this branch of industry. The cigars placed on the market by these houses are equal to any known to the trade, while their business aggregates hundreds of thousands of dollars yearly.

COOPERAGE.—The extensive pork packing establishments and the immense distilleries, together with numerous other factories of various kinds in the city, create a very great demand for goods of this class, and a large barrel factory is in operation in this city which employs one hundred men, and is a decided acquisition to the manufacturing interests of Des Moines.

SOAP FACTORIES.—The Des Moines Soap Works are furnished with first class machinery, and specially arranged for the manufacture of soaps of all kinds, and it is their intention to make none but the best quality of staple and fancy soaps.

TRUNKS.—Des Moines has one house devoted to the manufacture of trunks, and as they make all grades of trunks, valises, traveling bags and other articles belonging to this line of goods, they are meeting with well-merited success, and the business is increasing.

BOOK BINDERIES.—This has become an important industry, four firms being engaged in the business. These binderies are doing everything in their line, from rebinding old books to the finest class of work on printed or blank books, and are also manufacturing blank books for the trade.

LITHOGRAPHING, STEREOTYPING AND WOOD ENGRAVING.—

Lithographing is carried on by two firms; stereotyping by two firms, and wood engraving is done in first-class style. One firm is doing an extensive business in engraving and publishing maps, keeping agents constantly at work selling their goods.

PAINT WORKS.—There are two factories for the production of paints in the city, thoroughly equipped and furnished with all the machinery and appliances for the manufacture of prepared paints of all colors and shades. In their general appointments these houses will compare favorably with any in the west, while for quality and reliability of products they have gained an enviable reputation.

WOOLEN MILLS.—One firm, which about two years ago established a large woollen factory in Des Moines, has been eminently successful in their undertaking. They manufacture a fine quality of woollen goods, in cloths, cassimeres, blankets, yarns, etc., with which their large ware rooms are filled, and their products are highly esteemed by the trade.

MERCHANT TAILORS.—The establishments in this line in our city are first-class; displaying the latest styles, and keeping the best fabrics, both in domestic and foreign goods.

BROOMS.—The manufacture of brooms engages the attention of two houses in Des Moines. The business has grown to be an important industry in the city, and the product of these factories is unexcelled by any in the market.

STARCH FACTORY.—The Gilbert Starch Works is the most extensive factory operated in Des Moines. Their five story buildings were erected at a cost of \$100,000, while their machinery necessitated a correspondingly large outlay, and their works have a capacity of 3,500 bushels of corn per day. They have an elevator connected with the factory having a capacity of 150,000 bushels. The reputation of the Gilbert Starch, for purity and general excellence, is established far and wide, and it is one of the brands which is most in demand for the trade. The company have built homes for their operatives and this settlement has been incorporated into a town under the name of Gilbert, which is immediately adjacent to Des Moines on the south-east.

CRACKER MANUFACTURERS.—Des Moines has two firms engaged in the manufacture of crackers for the trade, and the goods sent out by them are unexcelled by any in the market, and with an established reputation for excellence, the demand for them is constantly increasing.

MERCANTILE INTERESTS.

Des Moines is rapidly gaining a reputation as a commercial city, and during the last few years has made immense strides in securing and refining the trade of the northwest. Our progress has of late been most marked in the direction of wholesale trade as well as manufacturing. New business houses are springing up, and all have orders from home and abroad to their fullest capacity.

Des Moines reaches the trade of a vast territory naturally tributary, in the most productive area on the continent, and in one of the best stock-raising and grain-producing regions of the world. The business portion of the city is becoming solidified by the erection of handsome and substantial business blocks. Business men in large numbers have come within our borders during 1883, many establishing large industries, and many more expecting to locate here as soon as time and circumstances will permit.

The immense trade that centers here is supported by the country for hundreds of miles in extent, reaching out into the territories beyond. With the rapid growth which Des Moines has made in the last few years, and with the many iron arms extending in almost every direction, reaching out for the trade not only of Iowa, but of the entire Northwest, for wholesaling goods and distributing manufactured products, our city is one of the best points in the country for the location of wholesale houses of all kinds.

There is in this city a Jobbers and Manufacturers' Association. The following persons are the officers: W. F. Mitchell, President; W. R. Stewart, Jr., Vice President; Elwood Gatch, Treasurer; W. W. Ainsworth, Secretary. The organization embraces over fifty of the prominent business men of Des Moines. The objects of the society are briefly, for mutual interest, self-protection and development of the business resources of this city.

We enumerate the wholesale business of the city:

PORK PACKING.—This city possesses great advantages for the pursuit of this industry, being located in the center of the second State in the Union in the production of hogs, and in the numerous railways converging to this point from all portions of the State, giving ample transportation facilities, and Des Moines ranks among the more important cities in the packing of pork.

GRAIN TRADE.—The grain trade of Des Moines is rapidly increasing. The new alcohol works, the International Distillery,

and the Gilbert Starch Works, each of which are among the largest factories of the kind in the world, added largely to the trade, and the millers and grain dealers of the city report an increased business. The trade next year we have reason to believe, will be largely increased, as we understand there is to be another elevator built, and from increased facilities for shipment, a larger number of dealers will be engaged in business.

FLOUR AND PRODUCE.—The extent of the flour and produce commission business transacted in this city is not generally appreciated by the public, but there are a number of houses engaged in this business whose annual transactions aggregate an immense sum. For several years the commission business has shown a large annual increase which is due to a great degree to the unrivalled facilities for shipment enjoyed by our city. The farm, garden, orchard and dairy products of one of the richest agricultural regions in the world, are pouring into our city, and with the ample facilities for storage and shipment possessed by these firms, the quantity of these products handled by them is simply immense.

BUTTER AND EGGS.—Iowa now occupies the front rank as regards the article of butter, and the business of packing and shipment of this commodity has assumed large proportions throughout the country. We have here four houses, shippers of butter and eggs, and the business transacted by these four firms extends over a wide territory in the north west, aggregating a large sum annually. In addition to these houses, several of our commission dealers handle butter and eggs.

LUMBER TRADE.—The rapid settlement of Iowa, especially of the newer portions in the western and northwestern parts, necessarily create an extensive demand for lumber, and the advantages afforded by Des Moines, as a commercial center by her unrivalled facilities for shipment, make it especially convenient and profitable as a lumber market. We have seven of the most extensive lumber firms in the west engaged in the business in Des Moines, whose business connections extend not only throughout Iowa, but the western and southern States, and they are constantly increasing the scope of their operations, and opening new fields in various parts of the country.

GROCERS.—In the development of Des Moines in reference to commercial affairs, the wholesale grocery trade must always occupy a prominent position as a branch of mercantile industry, contributing in no small degree to the present commercial importance of the city, and the firms engaged in this business are composed of men who are alert, active and ready for any

enterprise tending to enhance the interests of Des Moines, believing that whatever tends to elevate the city, exerts a beneficial influence upon their own business. The trade of the six houses has been augmented by the opening of new territory tributary to Des Moines upon the advent of new railroads here.

FURNITURE.—One of the most important branches of commerce is the trade in furniture of various grades. Three houses in Des Moines wholesale furniture. This city having become so convenient a distributing point, the dealers in furniture, as well as other branches of trade, report a flourishing business.

HARDWARE AND CUTLERY.—The advantages which Des Moines offers as a jobbing point are rapidly becoming known, as well as the fact that retail dealers prefer to purchase goods nearer home when they can do so at Eastern prices, thus saving freight and time, and the result is a large increase in the wholesale business of the city. We have three wholesale hardware houses in Des Moines which are doing an extensive business.

CARPETS AND OIL CLOTHS.—Four firms in the city deal in these goods. There is but one exclusive house in the city. All these houses keep the best of goods known to the trade.

MILLINERY.—This important branch of industry is represented in this city by three firms whose business extends not only throughout Iowa, but many of the western states and territories.

DRY GOODS.—We have two dry goods houses doing a wholesale business, and two other firms do both wholesale and retail business; one of which we understand contemplates making his business exclusively wholesale, in the near future.

NOTIONS AND FANCY GOODS.—Perhaps there is no term applied to a business or industry, which is so peculiarly American as that of "Yankee Notions," and while it would be almost impossible to enumerate the various articles which come under this designation, it includes an almost unlimited variety, which are essential in some way to every productive enterprise and every household. These must have their supply from our important jobbing and manufacturing centers, and we find four extensive establishments in Des Moines engaged in supplying the demand for fancy goods and notions.

BOOKS AND STATIONERY.—In all the wide range of industrial pursuits there is not a more interesting occupation than that of the bookseller upon which the education of the masses and the enlightenment of the public, in large measure depends.

TELEPHONE 178.

515 MULBERRY Street,

DES MOINES, IOWA.

We have three houses doing an extensive wholesale business in this line. These houses all employ a number of traveling salesman, and do a widely extended business throughout the west.

WALL PAPER.—Many of our readers may not be aware of the fact that we have one house in Des Moines which ranks fourth in the United States in the sale of wall paper.

PAPER.—The amount of newspaper used by our various newspapers and publishing houses, is simply immense; then the trade of a large territory tributary to our city, has made the business in this line important. There are five houses in this branch of trade.

CHINA, GLASS AND QUEENSWARE.—Two houses in Des Moines are importers and jobbers of these goods, buying direct from the factories, and wholesaling to the trade, and their system of buying enables them to enter into direct competition with eastern houses, duplicating their goods in quality and in price. They employ a large force of traveling salesmen, and command the trade of an extensive territory of the Northwest.

MUSICAL INSTRUMENTS.—While we have no exclusively wholesale house in the sale of this class of goods, there are three firms which sell both at wholesale and retail.

DRUGGISTS.—There is nothing which contributes more to the metropolitan character of a city than the establishment of enterprising and reliable jobbing houses, thereby inducing trade to the source of supply. The wholesale drug business is represented in Des Moines by three houses. By such as are not directly connected with it, the importance of this business is scarcely realized. The trade of these houses extends over a large tract of territory, and amounts to hundreds of thousands of dollars annually.

PROPRIETARY MEDICINES.—There is but one firm who are exclusive Manufacturers and Pharmacists. They are conducting a large business, their preparations are among the most popular, and find a ready sale in almost every city, town and village in the great northwest. Since their removal to this city their sales have more than doubled. This might be taken as an example of what can be accomplished by men of high qualifications, push and enterprise.

•The wholesale druggists, also a number of the retail houses, are manufacturers of standard preparations of their own, in the line of medicines, perfumes, etc., which are highly appreciated by the trade.

CIGARS AND TOBACCO.—Besides the manufacture of cigars,

there are a number of wholesale dealers in cigars and tobaccos. There is an extensive business done in this line, as we find that quite a number of traveling salesmen make a specialty of these goods.

LIQUORS.—Five houses in the city are engaged in the business of selling at wholesale all kinds of wines and liquors.

OILS.—There is only one wholesale house dealing exclusively in oils, and they handle all varieties of illuminating and lubricating oils. They employ a large number of travelling salesmen, and their business extends through the western states and territories. Our wholesale druggists and grocers also deal in oils of various kinds.

BOOTS AND SHOES.—In this line of trade Des Moines merchants supply a large extent of territory in the North-west, two firms doing a business which is exclusively wholesale, while two other houses do both wholesale and retail business, and all these houses are destined to a continued increase in trade.

LEATHER AND SADDLERY HARDWARE.—We have three houses in Des Moines who wholesale leather and saddlery hardware. These firms are among our most enterprising business men.

HATS, CAPS AND FURS.—There is but one exclusive wholesale house in this line, although two firms are doing some wholesale business in connection with their retail trade.

SEEDS.—The two firms here are known throughout Iowa as among the oldest houses in this line of business in the State, and have become well known as the leading seedsmen in this section of country. Both these houses have obtained a reputation for fresh and pure farm, garden and flower seeds. Besides these two houses, several agricultural implement firms deal in seeds.

AGRICULTURAL IMPLEMENTS.—The production of agricultural machinery has made wonderful revolutions in farming, every farm being now supplied to a greater or less extent with these essentials, and Des Moines has located within her midst five enterprising business houses, who wholesale this class of goods.

JEWELRY.—Des Moines has but one house whose trade in jewelry is exclusively wholesale, but this is the largest house west of Chicago and north of St. Louis. He imports his goods direct from Europe, employs a number of traveling salesmen, and does a correspondingly large business.

GENERAL BUSINESS INTERESTS.

DES MOINES BOARD OF TRADE.—The Board since its organization, September 14, 1860, has been an active agency in all important affairs of our city, and through its enterprise has been the means of securing to Des Moines many benefits. The association is composed of 200 of our leading public spirited citizens, who truly have the best interests of the city at heart, and who will use every effort to advance the growth and beauty of the metropolis of Iowa. The best evidence of the usefulness of this Board of Trade is in the fact that it is, next to our city press, the principal cause of the increased spirit of enterprise among our citizens, and it affords us great pleasure to say that from all points we have the evidence that Des Moines has made great advances in population, manufacturing, wholesale trade, public and private improvements, during the past three years which have never been equalled in any like period.

Any information with reference to the Business or Manufacturing interests, or inquiries from anyone desiring a new home or business location, will receive prompt attention by addressing the Secretary.

NEWSPAPERS.—Des Moines is especially favored with progressive newspapers, and to this live, enterprising fraternity the city owes much for its present prosperity. Perhaps in no department of business has more rapid progress been made than in that of journalism, which is a sure indicator of the intelligence and progressive spirit of a people.

The press is a potent agency in Des Moines, and is earnestly and intelligently at work to promote the best interests of the city. There are now four daily papers, ten weekly papers, one semi-monthly, and eight monthlies published in the city. They are edited with ability, and with a just appreciation of the prominent position they occupy as public educators.

POST OFFICE.—The United States Court House and Post Office is a fine structure built of Joliet stone, three stories and basement, at an expense of \$206,000, and is occupied by the post office department, the United States Courts, and all United States officers residing here. This building is noted as a model post office in every detail, and although the amount of business transacted here is very large, yet so systematically and efficiently is the work of transmitting the mails conducted, that it leaves no cause for complaint. The postal business of the city has increased so largely as to necessitate greater space, and for

this purpose, Congress has recently appropriated the sum of \$85,000 to enlarge and improve the building. Another story will be added which will greatly improve its appearance, and other changes will be made which will add to the comfort and convenience of the post office officials.

BANKS.—Des Moines has a solid financial status, and comparative statements rank us far in advance of any other city in the west of the same population, in number and amount of surplus deposits. A commercial city is always in a great degree dependent upon its banking facilities. The exhibits of the Des Moines banks have proved this to be a greater financial center than many suppose. The banks of Des Moines draw from the principal mercantile and corporate institutions throughout western and northern Iowa, and furnish a safe deposit for the banks and merchants in the counties of central Iowa. Eastern exchange sold by Des Moines banks amounts to millions annually.

LOAN ASSOCIATIONS.—There are six of these associations in our city, which loan not only the surplus money of our capitalists, but also of Eastern corporations. Money can be obtained at a low rate of interest. These associations are included with the banks among the solid financial institutions of our city!

BUILDING ASSOCIATIONS.—There are five first-class loan and building associations in Des Moines, all of which have rendered valuable assistance in building up our city. The object of these organizations is to aid any of their stockholders in their efforts to secure a home, by lending money to them at a low rate of interest, to be paid in weekly, monthly or yearly installments. The money is loaned only to stockholders. There are hundreds in Des Moines to-day dwelling in their own homes, who, but for these institutions, might not be thus fortunate.

REAL ESTATE.—The transactions in real estate during the year assumed large proportions. City property is in good demand, and large operations in real estate for manufacturing purposes, etc., are recorded. There are numberless inviting locations surrounded by native groves, overlooking beautiful scenery, or the business portions of the city, for residences; and lots, though in great demand, can be obtained at reasonable rates in a desirable location for business or manufacturing purposes. The rates of taxation on real estate, on the cash valuation is 2 1/2 per cent.

HOME INSURANCE COMPANIES.—The home insurance companies of Des Moines, are among the solid financial institutions

DES MOINES, IOWA.

of the State, and have contributed largely to the solvency and solidity of our mercantile enterprises. The officers of these various companies are among our most substantial and reliable business men, and are justly deserving of the confidence of the public.

HOTELS.—Our hotels are noted for their excellence in all those essentials which pertain to first-class accommodations. The locations, accessibility, and general management have brought them a reputation second to none in the west. Their tables present the very best viands the market affords, served in unexceptionable style. While our hotel facilities are excellent, they are no more than we need for our daily business, and it often occurs during the year, when State meetings of various organizations are held here, that they are unable to properly accommodate all who come. And this need is becoming more and more imperative with the increasing demand caused by the growth of business in our city. The erection of a large hotel which shall be first class in all appointments, is contemplated this year, and it is to be built, not only with a view to more fully supplying the present demand, but to afford sufficient hotel accommodations for the city for several years to come.

OPERA HOUSES.—Des Moines has three fine opera houses, which have a seating capacity of about five thousand. These are well arranged for comfort and convenience, having fine scenery, elegant proscenium boxes, handsome frescoes and comfortable seats.

CHURCHES.—Des Moines has thirty-eight churches, many of which are strong in members, wealth and influence. Most of the organizations have good, and in many instances large and handsome houses of worship. The church property is valued at about \$600,000 and the membership is about 9,000. Fully as many more non-members are found in our churches at the regular services, which indicates a large church-going population.

YOUNG MEN'S CHRISTIAN ASSOCIATION.—We have a flourishing association, having a membership of about two hundred, which is in efficient working order, and is accomplishing much good.

COLLEGES AND PUBLIC SCHOOLS.

The educational advantages afforded by Des Moines are a matter of pride and pleasure to her citizens, believing that the

POPULARITY OF HOME COMPANIES WITH THE PEOPLE.

This fact in part led to the formation of the

ACME INSURANCE COMPANY.

With a list of stockholders the equal of any State or Foreign Company, with a management "old and tried." We are not backward, therefore, in pressing our claims to your confidence and patronage, well knowing it is

A Company of the People and for the People.

Our application blanks have been arranged with a special view of BREVITY and PLAINNESS, and only such questions asked as would give the company at the Home office a fair understanding of the risk, and all interrogatories which blind and mislead the applicant left out. To our policy we have given special attention, making it

A PLAIN SIMPLE CONTRACT

between the company and the assured. The kind of a policy so long demanded by the people of Iowa is now given by the ACME INSURANCE COMPANY.

We call your special attention to the list of stockholders and directors, most of them are well known over the State. Post yourself in regard to their financial standing and reputation, you will then be informed in part as to the standing and character of the ACME INSURANCE COMPANY.

True to its name, the company expect to reach the summit of success by

Square and Honorable Dealing with Policy-holders,

Just and Prompt Payment of Losses, Conservative and Judicious Management.

Home Office, Good Block, Des Moines. Iowa.

school system of this city is equal in management and results to that of any city east or west. The Board of Education is composed of men of broad and liberal views, in pursuance of which they employ the best teachers at a liberal compensation, and as a result the public schools are conducted in a highly satisfactory manner. In the three colleges of the city, the curriculum of instruction is thorough and comprehensive, and in the various private schools the results accomplished are not only theoretical but practical.

UNIVERSITY OF DES MOINES.—This, the oldest of our colleges, was established a number of years ago by Iowa Baptists, and is located in the northwestern part of the city, on an eminence commanding an extended and beautiful view of the city and its surroundings. A full collegiate curriculum is maintained, it aims to keep pace with the scientific methods of modern instruction, and its corps of instructors is energetic and ambitious, and fully alive to the demands of the State and the age.

CALLANAN COLLEGE.—Callanan College was established here through the liberality of Mr. James Callanan, who gave for the purpose \$20,000, while other citizens also contributed liberally.

The college aims chiefly to afford a liberal education to young ladies, and the boarding department is restricted to them, but it also prepares young gentlemen for college or business. It is thoroughly christian, but entirely undenominational. It occupies central and beautiful, yet somewhat secluded grounds overlooking the city, and is admirably located for such an institution.

DRAKE UNIVERSITY.—This is the youngest of our colleges, and is under the auspices of the Christian denomination. It is located in a beautiful grove in the extreme northwestern portion of the city, the college building is a handsome structure and there has been erected a fine commodious building called the Student's Home, besides several elegant residences for the professors, and a number of other buildings. This school has been greatly assisted by the generosity of Gen. Drake, of Centerville, who gave \$20,000 in aid of the enterprise. The plan of the institution contemplates literary, medical, law, business, theological, art and musical courses of study.

PUBLIC SCHOOLS.—The system of public instruction in Des Moines is very complete and of a high grade. The school buildings, fourteen in number, are of the finest order, and would

do honor to any large city of the country, and the schools are under the care of able and competent instructors. Men of broad and liberal views compose the board of education; and to them is due, in no small degree, the prosperity of our schools.

PRIVATE SCHOOLS.—Besides our public schools, we have a number of private institutions of learning, which are largely attended, and possessing excellent school buildings centrally located.

BUSINESS COLLEGES.—The two institutions here impart instruction in book-keeping, penmanship, business arithmetic and law, telegraphy, stenography, and those branches which especially prepare young men and women for active business life. The knowledge obtained in these schools is not only theoretical, but practical as well, fitting the student for the busy scenes of real life, and putting this knowledge to use as fast as it is acquired.

MUSIC SCHOOLS.—The advantages offered by our music schools for the acquirements of a thorough musical education are unsurpassed in the west, and whether the student is desirous of obtaining a theoretical or practical knowledge of music, instrumental or vocal, the instructors in these schools are fully competent to impart the information desired. These institutions are all in pleasant and accessible locations, and are largely attended by advanced pupils, as well as those commencing the study of music.

LAW SCHOOLS.—The Iowa College of Law was located here last year. Des Moines cannot be excelled as a location for legal training. As the capital of the State, it affords the student rare advantages. The biennial sessions of the General Assembly give him opportunity to witness the process of legislation. The student has free access to the State Library, which contains about ten thousand volumes of law books alone, including the reports of all the States and England complete, and one of the fullest collections of legal text books in the west.

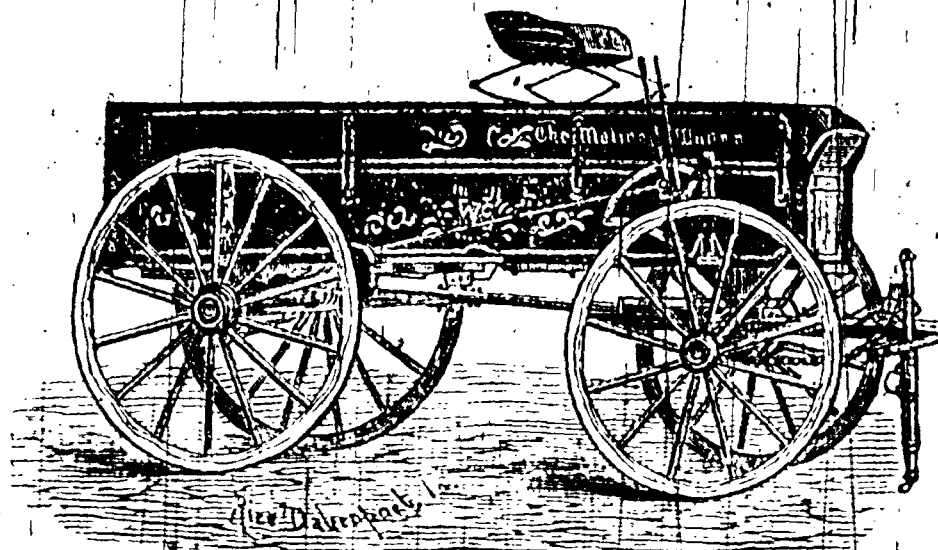

The aim of the faculty is to give thorough instruction, and we understand the final examination will be strict, requiring faithful work of the student in order to graduate.

MEDICAL COLLEGES.—There are three medical schools here, which offer excellent advantages for the acquirement of a thorough medical education.

PUBLIC LIBRARIES.—One of the most beneficial and complete sources of entertainment, progress and culture, is afforded

by the libraries of the city. Here we have our celebrated State Library, which ranks fifth in size and importance among the law libraries of the Union. The scientific, historical, fiction, biographical and record departments are also well filled. We have also a well selected city library, containing about 5,000 volumes, in addition to which is kept a file of the leading monthly and weekly magazines, and our city publications, all of which are free to the use of the public. The State Arsenal contains the Record Library for Iowa, of the wars of the United States, which are for public reference.

SOCIETIES AND ORDERS.—The visitor from abroad, it matters not from what portion of the world he comes, may find among the various benevolent and social organizations in the city, some one to extend the hand of welcome, and express a fraternal interest in the stranger. These various societies and orders are numerous, and most of them are strong in numbers and influence.

EXPRESS COMPANIES.—There are four Express Companies in our city, as follows: United States, American, Wells, Fargo & Co., and the Pacific. W. H. Quick is division superintendent of the United States Co., and E. L. Smith is agent for the United States, also for the Pacific. C. F. Demuth is agent for the American and Wells, Fargo & Co.

TRANSFER COMPANIES.—Some idea of the great amount of business transacted in the transfer of goods between the business houses and manufactories, and the depots, may be gained from the statement that six large and well disciplined companies are engaged in it.

OMNIBUS LINES.—No better line of omnibuses can be found in any part of the country than that of Johnson & Son of this city. They are always at the depots at the arrival and departure of trains, day or night, to take passengers to any part of the city. They have kept pace with the city's progress, in furnishing transportation accommodations for all occasions.

TELEGRAPH COMPANIES.—The industries of Des Moines, which have made such remarkable progress in the last few years, demand an extensive system of telegraphic communication, which is furnished by the Western Union Telegraph Company giving us direct communication with the oceanic cables, and through them with all portions of the world.

TELEPHONE EXCHANGE.—In these days of rapid transit and expeditious transaction of business, the telegraph has been supplemented with the telephone, so that business men are en-

abled to hold personal conversation although widely separated. Des Moines was not slow to recognize the benefits to be derived from this invention, and her telephone system is excellent.

FIRE ALARM.—Steps have been taken to give the city a patrol and fire alarm telegraph system, the best in use, which will be just what is needed.

SIGNAL SERVICE.—The United States Signal Service established a station in Des Moines, August 1, 1878: Five observations are taken daily, and reported to Washington by telegraph, from which, together with the reports received from other stations, of which there are one hundred and thirty-five, indications and predictions of the weather are made for the next twenty-four hours. The Des Moines station is one of seventeen printing signals stations in the United States, and has been of special benefit to residents of this locality.

STREET RAILWAYS.—Des Moines has an excellent street railway, well equipped and managed. Last year the track was extended about three miles, while the present year will witness an extension, with the addition of several new cars to the number now upon the line. The present season, it is the intention of the company to remove the western terminus northwest through Cottage Grove to University Place; a line directly westward to the State Fair grounds is also projected.

WATER, GAS AND ELECTRIC LIGHT.—Des Moines uses the Holly system of water works, and the Racoon river from which the water is taken, is soft and pure. The water company have made extensive improvements to the works, during the past year, involving an outlay of many thousands of dollars. Of the gas works it is only necessary to state, that they are first class, and amply supply the demand, with gas of excellent quality. The lights upon the streets are numerous, and are kept in good condition.

The electric light system is now introduced in this city; many lamps have already been leased to our merchants which have proven very satisfactory. The wire used is of copper, and is heavily woven with white twine; and it is conducted on private poles from the manufacturing establishment to where it is wanted.

There has been organized in our city a company known as the Sanders Gas Machine Co. For lighting city, country and suburban residences, stores, churches, manufactories, hotels, opera houses, seminaries, asylums, etc., this machine makes a soft, clear and steady light. One of the greatest luxuries, and

DES MOINES,

IOWA.

one of the greatest necessities of the times, is a good, cheap and safe light. It is the latest patented, and from its simplicity and improvements is acknowledged to be ahead of all other machines.

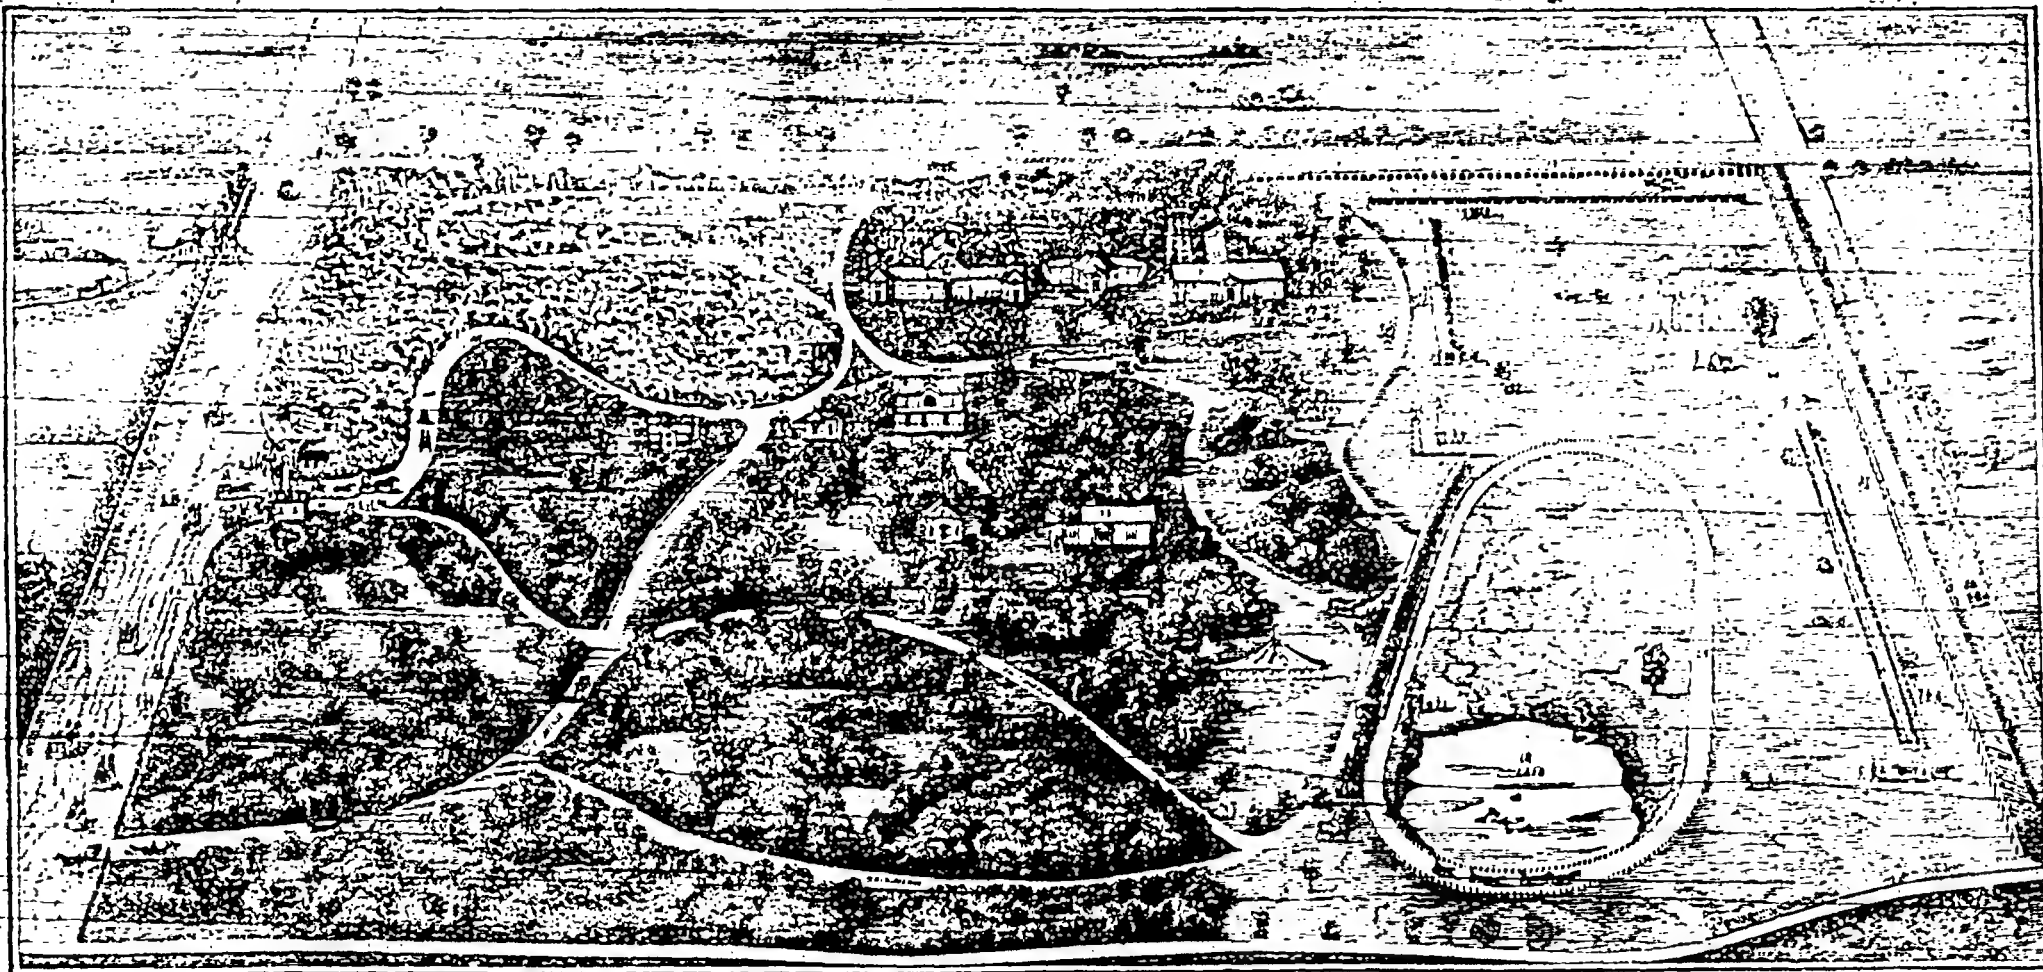

ICE COMPANIES.—The Des Moines river furnishes during the winter an ample supply of clear, pure ice for the use of the city in summer, and this is furnished to our citizens by two companies. Besides supplying the city these companies also ship large quantities elsewhere, and in addition to the immense quantities stored by the ice companies, thousands of tons are put up by the pork packers, brewers and other large consumers.

HOSPITALS AND FREE DISPENSARIES.—The Cottage Hospital is located in a pleasant and comfortable building in the northern part of the city, is sustained in part by voluntary contributions, and has accomplished a vast amount of good. Such patients as are able to pay for treatment do so, but any others are received and given the best of medical skill and nursing. The medical treatment has been furnished by the Polk County Medical Society.

There are also in the city two institutions known as Free Dispensaries the object of which is to give free medical services to all who present themselves, and are unable to pay. The druggists generously co-operate with the physicians and furnish medicine gratuitously. The dispensaries are open daily from one two two o'clock, except Sundays, and two physicians are in attendance each day.

FIRE DEPARTMENT.—Des Moines claims to have one of the most thorough fire departments in the State; the companies having a large membership, with houses on each side of the river. The horses are kept constantly harnessed, and the drivers sleep in a room immediately above, in which is a gong that sounds by connection with the telephone. The harness is fastened everywhere with snaps, so that hitching up is the work of an instant. The department is well equipped with all necessary appurtenances for protecting and saving property, and the members are uniformed in a neat and attractive manner. The fire department is well disciplined and very efficient.

CEMETHERIES.—Woodland cemetery, our beautiful "city of the dead," is situated in the northwestern portion of the city. The land is gently undulating, uplands and dells and shady groves abound, and a small stream quietly pursues its way through the grounds. Immediately north of Woodland cemetery is the Catholic, and the Jewish cemetery adjoins it on the

Bird's-Eye View of State Fair Grounds (Elmwood Park), Des Moines, Iowa.

northwest. New grounds have been recently purchased by the city, and laid out for cemetery purposes for the accommodation of that portion of the city east of the Des Moines river.

PARKS.—Public parks provide health and sunshine for the people, and a happy play ground for the children. They are cheerful resorts for the old and young, rich and poor, where all are free to go for recreation and happiness. It is unfortunate that the city was not provided with park grounds years ago when grounds could have been purchased at comparatively moderate cost, for the time is rapidly approaching when convenient and suitable grounds will be difficult to find. We have two parks, the older of which—Elmwood Park—being the site of the State Fair Grounds, is described elsewhere in this work. Prospect Park has been laid out more recently, and arrangements are now being made to commence work as soon as possible in the spring. The land lies about three-quarters of a mile north of the north limits of the city, and between Sixth and Twelfth streets, and contains in all about sixty acres. The site selected is a fine one, and gives an opportunity for everything which goes to make a first-class park. The land lies in fine shape for drives in all parts of it. The bluff cuts off the north twenty acres, making out of it a fine valley, in which it is expected to have artificial lakes, rustic bridges and elegant drives. The bluff will also give a splendid opportunity for some of the finest kind of drives, and it will all be utilized for park purposes. It is proposed to expend several thousand dollars on improving the place at once, and Des Moines may have a place of resort for pleasure inside of a year, not completed, of course, or hardly begun, but a fine place for drives.

Des Moines is in imperative need of more good public parks, and the need will become more urgent every day until they are provided.

IOWA STATE FAIR GROUNDS.—The Iowa State Agricultural Society, at their last session, decided to hold their next Annual Fair here. The last fair was the grandest exhibition of the products of the soil and dairy, agricultural implements, and manufactured products, and fine stock ever held within our State. The State Society has been controlled, as a rule, by the best minds in Iowa; its affairs have been conducted with intelligence and prudence its annual volume of transactions has accomplished a great work toward inviting immigration; it has given wide circulation to a knowledge of our resources to other State and counties; its compilation and preser-

vation of statistics, its collections of the products of the field, and its library, are valuable.

The fair grounds are located at Elmwood Park, one mile west of the city limits. The grounds comprise about one hundred acres, including a natural lake covering about four acres, with an average depth of sixteen feet, and for beauty and harmony of arrangement surpass anything ever used as fair grounds in Iowa. The carriage ways and walks are kept in good order, and have ornamental entrance and exit gates. There is abundant shade, and a bountiful supply of pure cold water, there being a system of water works, operated by a powerful engine, and pipes laid out throughout the grounds. The buildings are ample, tasteful and convenient for the use of exhibitors, officers and visitors. The amphitheatre will easily seat ten thousand persons, and the track is pronounced the best west of Chicago. The location is very favorable, being easily accessible from all portions of the State. The C. R. I. & P. R. R. has a double track extending from their depot on Fourth street, to the entrance of the Fair Grounds, and the Wabash also runs regular trains during the State Fair. Other railway companies expect to lay tracks to the grounds, to be ready for operation at the opening of the next State Fair.

CITY BUILDING.—The new building on the West Side is probably the best as well as the handsomest building of the

DES MOINES

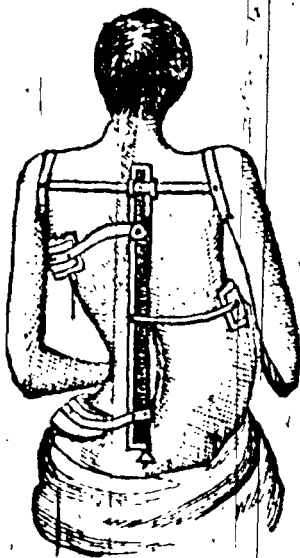

Surgical Institute and Dispensary

N. E. COR. EIGHTH AND WALNUT STREETS,

—OPPOSITE—

Foster's New Opera House.

Established and fully equipped for the treatment of all Chronic diseases, Surgical cases of every character, diseases of Women, diseases of the Eye and Ear and deformities of every description, and all cases requiring skill and experience.

SURGICAL CASES.

Of every character receive special attention. All operations in Surgery performed after the latest and most successful methods. Tumors, Cancers, Amputations, Hydrocele, Varicocele, Hare Lip, Club Foot, Curvature of the Spine, Fistula, Fissure, Piles, etc., Cataract, Cross Eye, closed Tear Duct, deformities of the Lids, etc., successfully operated on and treated.

CATARRH

In all its stages and complications successfully treated with the Vitalized Oxygen and specific remedies. Parties suffering from this trouble should investigate our method of treatment.

All medicines used are carefully prepared by us in the Laboratory of the Institute, warranted fresh, pure and free from any injurious substances. This method insures remedies certain in action, producing safest and most speedy cures.

kind in the State. The offices are furnished in a style in harmony with the imposing exterior of the edifice. The whole arrangement is convenient, elegant and tasteful. The East Side building is quite handsome, also, and the city officials are now provided with a permanent home, besides having a safe depository of the municipal records.

PAVING, SEWERAGE AND SIDEWALKS.—The year 1882 will be memorable in the history of Des Moines, as having witnessed the commencement of the work of paving and sewerage of the city. The principal part of the pavement laid was of cedar blocks, the balance being macadam. The work so well begun was continued with energy during 1883, and the time is near, it is hoped, when our principal residence streets as well as all our business streets will be paved. The paved streets were all previously sewerage, besides some of the streets which still remain unpaved, and the contracts have been let for more sewerage to be done this year. We have about four and a half miles of paved streets, about one and a quarter miles of paved alleys and eight miles of curbing. There are nearly ten miles of sewers which range in size from twelve-inch pipe to sixty-inch brick. We have also twenty-three miles of gas mains.

NEW CAPITOL OF IOWA.

The new Capitol edifice is a magnificent structure. It is built of white stone, elaborately trimmed and ornamented; there is a tower at each corner, and a gigantic dome in the center. The structure occupies a double square in length, reaching across one street, and is surrounded by what will soon be transformed into a magnificent park.

Its cost when finished will be about three and a half millions of dollars. The interior is more elaborately decorated and elegantly finished than that of any other capitol in the Western States. The building was dedicated, and the Twentieth General Assembly took formal possession of it January 17th, 1884.

BUSINESS ENTERPRISES NEEDED.

Manufacturing is admitted to be the basis of success in the growth of a city, and this is fully realized by the citizens of Des Moines, who are desirous of giving all the encouragement in their power for the establishment of new enterprises here. Every citizen takes pleasure in noting the growth of our various manufactories, the astonishing strides which the wholesale and jobbing interests have taken to supply the increasing demand for their goods, and the many new gateways opened for the entrance of other industries, which are bound to follow.

Nowhere in the west is there a better point for the receipt of the raw material, the production and distribution of manufactured goods, nowhere can a multitude of workmen more economically support themselves and families, or more easily procure a home. We have shown the great advantages, natural and acquired, which Des Moines possesses for a manufacturing center, and we desire to call the attention of capitalists and manufacturers to the needs of the city. Although Des Moines has a large number of factories in successful operation, engaged in the manufacture of a variety of products, yet there is room for many more industries in various branches of manufacture.

There is an excellent opportunity in Des Moines for the establishment of any of the following industries:

WHOLESALE DRY GOODS.—There is no business so much needed in this city at the present time, as an exclusive wholesale dry goods house. The merchants all over Iowa and the States and territories west of us, are asking for it, and promise their support to any reliable house that may establish here; most of the wholesale houses of this city have united in an invitation, pledging their support to the establishment of an exclusive wholesale dry goods house in this city.

ROLLING MILLS AND NAIL WORKS.—Nothing would be more cordially welcomed by our railroads, jobbers, contractors and wholesale dealers than rolling mills and nail works. It is said that the cost of returning rails and car wheels to Eastern mills for re-moulding, would pay the expense of re-manufacturing them at this point, and nails can be made at the same price as in Eastern States; and by obtaining the ore from the Iron mountains of Missouri, or Lake Superior regions, one half the freight paid for eastern products would be saved.

STOCK YARDS.—One thing which we need, and the demand must soon be supplied, is good convenient stock yards. Not only ought this to be the great central feeding point in transit, but efforts should be at once put forth to make Des Moines a notable stock market. The yards should be large and conveniently arranged. Here the butcher and the packer should be able to find at all times what their business requires.

GRAIN ELEVATORS.—The three which we now have are inadequate to the demand of this, the central portion of one of the greatest grain raising districts of the Mississippi and Missouri river valleys. To those who build them, they will prove profitable investments, and their convenience to farmers about us will not be realized until we have them, and see their vast importance.

A PAPER MILL.—For the manufacture of both news and wrapping paper, would be a valuable acquisition to our city. An abundance of the material required for its manufacture is shipped from our city or wasted on the adjoining fields. The entire product of a large mill can be used here, and every convenience necessary for its operation can be had at small expense.

CANNING ESTABLISHMENTS.—No soil excels our own in productiveness, and few regions can compare with us in the bountiful harvests of the field, the orchard and the garden. Instead of importing for consumption during the winter months, we ought to can for preservation our own sweet corn, peas, beans, tomatoes, small fruits, etc. We have the best facilities in the West for exporting these goods. A canning establishment, having all the needful accessories, would be a remunerative business, and should be built, and men of enterprise should not permit the city to be long without this important industry.

MISCELLANEOUS INDUSTRIES.—One thing most desired by every citizen is available and convenient Market Houses. Every resident of the city is interested in this, and the farmers and market gardeners of the vicinity are demanding it, with sufficient reasons to be successful in their plea. A Cheese Factory, also a Creamery, in or near the city would be remunerative industries, if their capacity was sufficient for all the milk which could be supplied. The product could never exceed the demand.

Des Moines is one of the best locations in the west for the manufacture of all kinds of Agricultural Machinery. A first-class Wagon Factory would be a profitable investment, as our agricultural implement dealers sell annually nearly one thousand wagons, which should be manufactured here. The manufacture of various farm implements is in operation here, but can not supply one-fifth of the demand, and there is encouragement for one or more first-class factories. The best quality of silicious sand for the manufacture of flint glass is found in the immediate vicinity of Des Moines. No better location for glass factories can be found in the west than at Des Moines.

There are many industries that would prove remunerative which should be established here, and we believe there is no better locality in the west for manufactures of nearly every variety, than our city affords. We might mention many branches of business and manufacture which would be successful if located in Des Moines, but enough has already been said to induce anyone who is looking for a new site for business, or home, to visit our city before locating elsewhere. We might mention, however, that a factory for the manufacture of articles

produced from flax straw would be a good investment here, where so much straw is wasted, the flax seed only being utilized by our linseed oil mills, which consume five hundred bushels per day.

A factory for the manufacture of baskets, tubs, buckets, and the various articles of wooden and willow ware, would, no doubt, be a successful venture. There is no better site for the establishment of a large boot and shoe factory than Des Moines. Several houses here are engaged in the business of hides, pelts and furs, and a first-class tannery is necessary to prepare the leather. A factory for the production of hats, caps, furs and gloves could be operated here where there is great demand for all such goods. Furniture of all kinds should be more extensively manufactured, there being black walnut and other varieties of woods necessary for such purposes, found in this vicinity. Establishments for the manufacture of stoves, shelf hardware, druggists' materials, sewing machines, cotton mills, also a good cutlery factory would do well here.

In the wholesale interests of our city, nearly every line of trade is represented by houses which justify us in speaking of them in the highest terms of praise, but healthful rivalry promotes growth, and there is room for at least another house in many branches of business. Des Moines wants these factories and business houses, and is anxious to have the excellent opportunities utilized, when the beneficial results are so apparent, which we hope the capitalists of the country may soon realize.

Any information with reference to the business or manufacturing interests, or inquiries from anyone desiring a new home or business location will receive prompt attention by addressing the Secretary.

SUBURBAN TOWNS.

NORTH DES MOINES.—This is a suburban town containing a population of about five hundred, and adjoins the city on the north, as the name indicates. It extends a mile and a half east and west, and half a mile north from the limits of the city, and is a popular place of residence. The situation is elevated, and the surface, which is diversified with beautiful groves of native trees, is gently undulating, affording elegant residence sites. North Des Moines was incorporated in 1880, and the following are the

OFFICERS:—S. A. Kelsey, Mayor; G. S. Hughs, Recorder; R. A. Rollinson, Treasurer; H. A. Bigelow, Assessor; W. S. Chapman, Marshal.

ALDERMEN:—A. Jones, J. Bellangee, B. N. Kenyon, W. A. Garrett, J. A. Nash.

UNIVERSITY PLACE.

The growth and development of this beautiful suburban place has been surprising. It is the seat of Drake University, and many handsome residences have been built, while many more will be erected during the coming season. It is situated in the northwestern part of the city, and is one of the most beautiful and healthful portions. The street railway is being extended in that direction, and is expected to reach the place during the coming summer. University Place has its own postoffice.

The officers are as follows: Norman Haskins, Mayor; Sibrel, Recorder; B. B. Burton, Treasurer; E. Helyer, Marshal.

COUNCILMEN: A. S. Kingman, J. Jackson, L. S. Bottonfield, B. E. Shepherd, E. A. Ingham, E. D. Smith.

GREENWOOD PARK.

Was incorporated in 1881, adjoins the city on the west, and is the most beautiful of our suburban towns. It contains some of the most elegant residences in this part of the country, and Greenwood Avenue, the finest drive in the city, extends throughout its entire length from east to west. It is very popular as a place of residence, and many of our leading business men prefer a residence there to the more crowded portions of the city. Most of the houses have telephone communication with the business portion of Des Moines; sidewalk is laid throughout the entire length of Greenwood Avenue, and it is anticipated that a street railway will be laid through Greenwood Park to Elmwood Park, and the Iowa State Fair Grounds.

The officers of Greenwood Park are L. Perkins, Mayor; C. B. Kauffman, Recorder.

TRUSTEES: A. N. Denman, E. R. Mason, Washington Miller, W. H. Welch and J. H. Windsor.

GILBERT.—Is just outside the south eastern limits of the city, and is laid out in convenient lots for residences, with appropriate streets and alleys. The many heavy manufacturing establishments in that locality already built and in operation, and others to be completed in the vicinity in the near future, revealed to the founders of this suburban town, that the many hundreds of operatives, necessarily employed now, and the ad-

ditional hundreds to be employed in these establishments of wealth and industry, must be provided with suitable homes, at no great distance from their places of labor. Hence the building of this new town.

The post office at Gilbert is known by the name of Chesterfield.

The officers are Mayor, A. H. Pettit; Recorder Wallace L. Hardy.

TRUSTEES.—John J. Fitzgerald, L. W. Graham, A. Larison, W. S. Bennett, H. L. England, John Myers

SEVASTOPOL.—This is a village of about five hundred inhabitants, adjoining the city on the southeast, and the principal industry here is the mining of coal. Four mines are located within the corporate limits of this town, but the principal offices of these companies are located in the city of Des Moines, and for all practical purposes belong to the city. The town supports a variety store, a blacksmith shop, a meat market and various mechanical trades. An extensive business in market gardening is carried on here, the product being sold in Des Moines. R. F. Young is Mayor, and L. Heidt recorder.

"Logic is Logic."—In the logic of events the University of Des Moines is fixing its roots in the soil of the ages. At the Jerusalem of our commonwealth, the very heart of Iowa life, it takes inspiration, hope and new power; and with its present management is rising out of debt to its higher level and life, prominence and permanence. Located in the beautiful College Park on Pleasant street, its rare opportunities, open doors, invite and welcome the young men and women of the Northwest, inciting them to a higher life. It is their unspeakable privilege to become members of this institution of learning. We are in connection with every part of the State direct as with vital bars of steel.

The beauty of the place, the enterprise, wealth and culture of the citizens, the natural concentration here of Iowa industries, light and forces; the legislative, literary, musical, artistic specialities, professional eminence, social refinement, the twenty-three papers and periodicals of this city, and its eighty-four daily trains make it a providential site for the University of Des Moines.

REV. IRA E. KENNEY, D. D.,

YOU CAN TRAVEL 4000 MILES

—THROUGH—

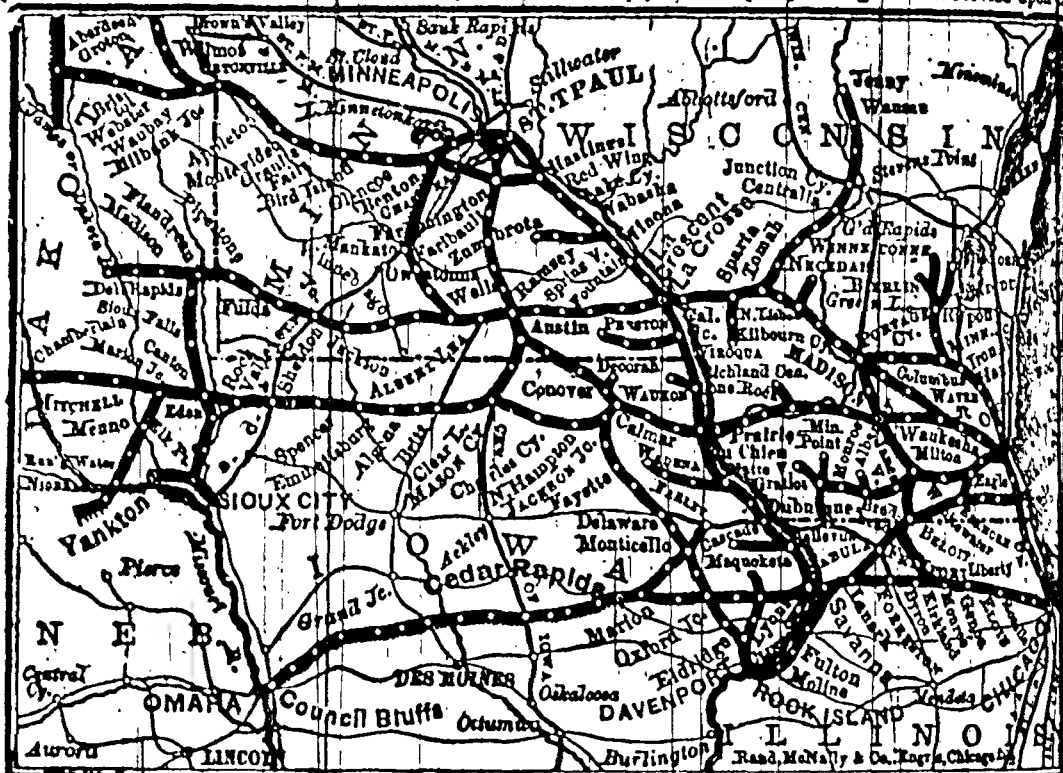

ILLINOIS, WISCONSIN, IOWA, MINNESOTA and DAKOTA,
OVER THE ROADS OF THE

CHICAGO, MILWAUKEE & ST. PAUL R'Y CO.

Without doubling on your tracks. This magnificent system reaches almost every important TOWN and SUMMER RESORT in the GREAT NORTHWEST. It includes the only Through unbroken lines owned by any one Company, Between Chicago, Milwaukee, St. Paul and Minneapolis, and forms with its connections the picturesque

MISSISSIPPI VALLEY ROUTE

Between St. Louis and Northern Minneapolis. It also includes Through Routes between ALL the Terminal Points shown upon this Map, with ample passenger train service upon

Remember, this Company OWNS all Roads shown above in heavy lines

Reference to the Official Railway Guides or the Time Tables published by the Company, will show that C. M. & St. P. can take you in its Splendid Passenger Trains, at Express Speed, over its own Superb Tracks FROM almost anywhere TO almost anywhere in the Five Great States named above.

ITS ROAD-BED, SUPERSTRUCTURE and EQUIPMENTS COMBINE ALL MODERN IMPROVEMENTS, AND ARE PERFECT IN EVERY PARTICULAR

It runs its own **MAGNIFICENT SLEEPERS** upon all Through Trains, and its own **PARLOR CARS**—the finest in the world.

Its **RAILROAD HOTELS** and **DINING HALLS** are noted for their superior excellence.

While it connects the prominent Business Centres of the Northwest, it has also upon its lines more Health and Pleasure Resorts and greater Scenic Attractions than any other system of roads upon the continent. Its Magnificent New Union Depot, on Madison, Canal and Adams Streets, Chicago, is the most elegant and commodious Passenger Station in the United States.

It is conceded by the Traveling Public, to be in all things, **THE LEADING LINE.**

B. S. MERRILL, Gen'l Manager. **W. O. VAN HORNE,** Gen'l Superintendent. **A. V. H. CARPENTER,** Gen'l Pass and Ticket Asst. **J. H. PAGE,** Asst Gen'l Passenger Agent.

THIS NEW AND CORRECT MAP

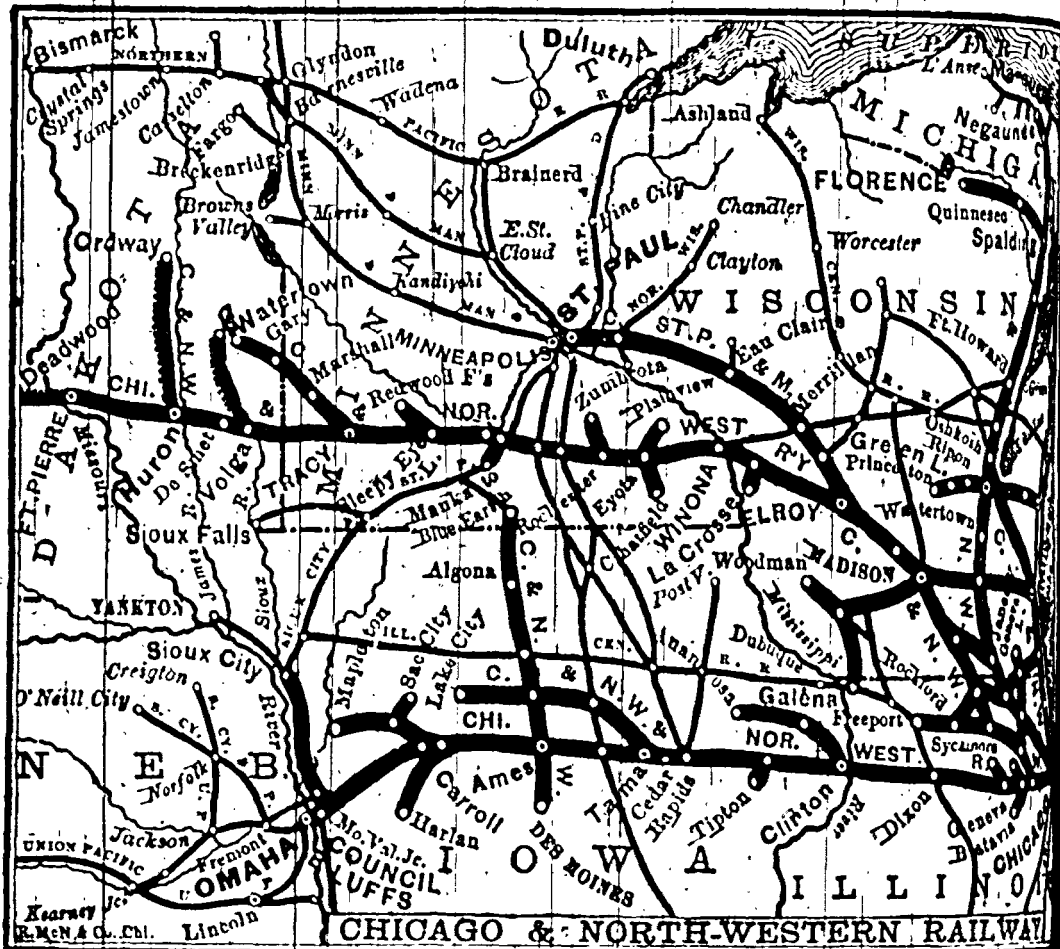

Proves beyond any reasonable question that the

CHICAGO & NORTH-WESTERN RY

Is by all odds the best road for you to take when traveling in either direction between

Chicago and all of the Principal Points in the West, North and Northwest.

Carefully examine this Map. The Principal Cities of the West and Northwest are Stations on this road. Its through trains make close connections with the trains of all railroad junction points.

THE CHICAGO & NORTH-WESTERN RAILWAY,

Over all of its principal lines, runs each way daily from two to four or more Fast Express Trains. It is the only road west of Chicago that uses the

PULLMAN HOTEL DINING CARS.

It is the only road that runs Pullman Sleeping Cars North or Northwest of Chicago. It has nearly **3,000 MILES OF ROAD**. It forms the following Trunk Lines:

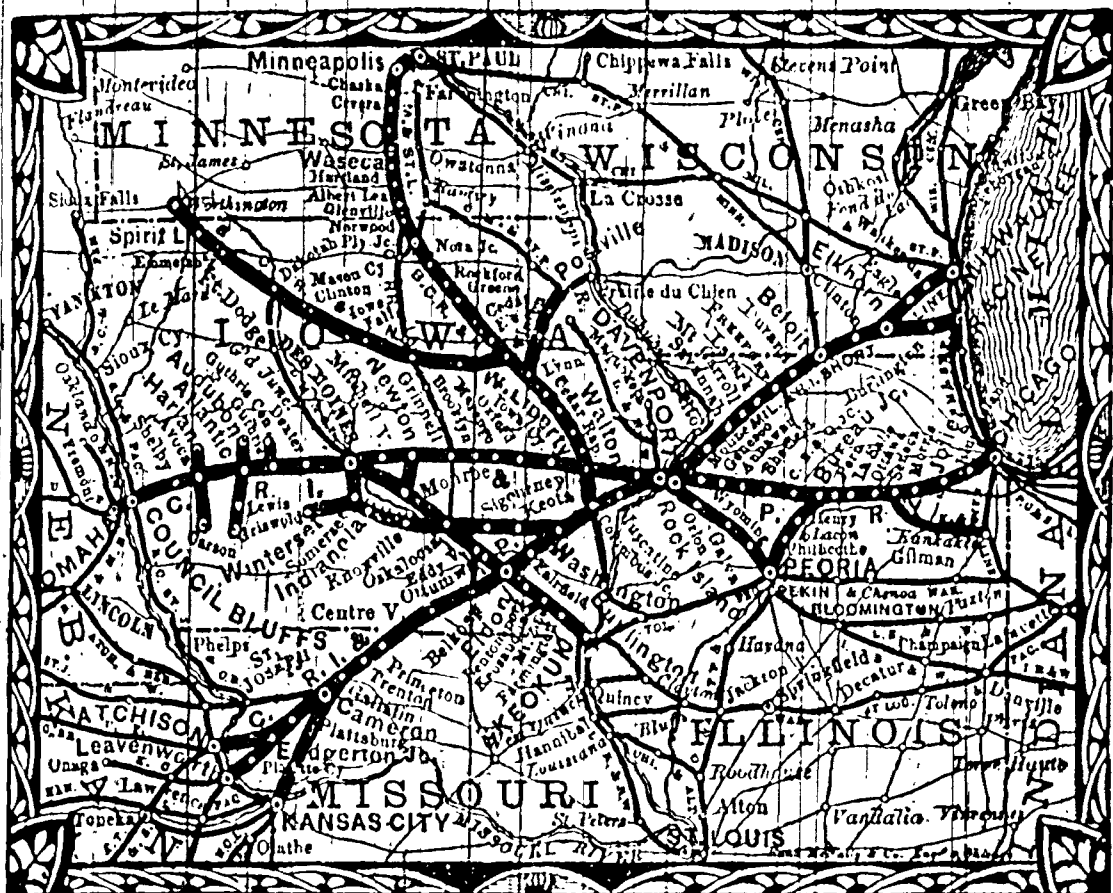

"Council Bluffs, Denver & California Line." "Winona, Minnesota & Central Dakota Line."
 "Sioux City, Nor. Nebraska & Yankton Line." "Chicago, St. Paul and Minneapolis Line."
 "Nor. Illinois, Freeport & Dubuque Line." "Milwaukee, Green Bay & Lake Superior Line."

Tickets over this road are sold by all Coupon Ticket Agents in the United States and Canada.

Remember to ask for Tickets via this road, be sure they read over it, and take none other.
MARVIN HUGHITT, Gen'l Manager, Chicago. **W. H. STENNETT**, Gen'l Pass. Agent, Chicago.

I A M A N

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE

CHICAGO, ROCK ISLAND & PACIFIC R'y,

Being the Great Central Line, affords to travelers, by reason of its unrivaled geographical position, the shortest and best route between the East, Northeast and Southeast, and the West, Northwest and Southwest.

It is literally and strictly true, that its connections are all of the principal lines of road between the Atlantic and the Pacific.

By its main line and branches it reaches Chicago, Joliet, Peoria, Ottawa, La Salle, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Keokuk, Knoxville, Oskaloosa, Fairfield, Des Moines, West Liberty, Iowa City, Atlantic, Avoca, Audubon, Harlan, Quinrie Center and Council Bluffs, in Iowa; Gallatin, Trenton, Cameron and Kansas City, in Missouri; and Leavenworth and Atchison in Kansas, and the hundreds of cities, villages and towns intermediate. The

"GREAT ROCK ISLAND ROUTE,"

As it is familiarly called, offers to travelers all the advantages and comforts incident to a smooth track, safe bridges, Union Depots at all connecting points, Fast Express Trains, composed of COMMODIOUS, WELL VENTILATED, WELL HEATED, FINELY UPHOLSTERED and ELEGANT DAY COACHES; a line of the MOST MAGNIFICENT HORTON RECLINING CHAIR CARS ever built; PULLMAN'S latest designed and handsomest PALACE SLEEPING CARS, and DINING CARS that are acknowledged by press and people to be the FINEST RUN UPON ANY ROAD IN THE COUNTRY, and in which superior meals are served to travelers at the low rate of SEVENTY-FIVE CENTS EACH.

THREE TRAINS each way between CHICAGO and the MISSOURI RIVER.

TWO TRAINS each way between CHICAGO and MINNEAPOLIS and ST. PAUL, via the famous

ALBERT LEA ROUTE.

A New and Direct Line, via Seneca and Kankakee, has recently been opened, between Newport News, Richmond, Cincinnati, Indianapolis and La Fayette, and Council Bluffs, St. Paul, Minneapolis and intermediate points.

All Through Passengers carried on Fast Express Trains.

For more detailed information, see Maps and Folders, which may be obtained, as well as Tickets, at all principal Ticket Offices in the United States and Canada, or of

1884.

The Iowa State Register.

THE LARGEST PAPER PUBLISHED WEST OF NEW YORK.

COMPLETE

Agricultural, Commercial  Miscellaneous
DEPARTMENTS.

More Reading Matter than any Two Papers in Iowa.

History of the World in General, and Iowa in Particular.
For Week Ending on Day it Goes to Press.

| | | | | | |
|----------------|---|---|---|---|------------------|
| WEEKLY, | - | - | - | - | \$ 1.25 Per Year |
| DAILY, | - | - | - | - | 10.00 " " |

The Register's unrivaled location at the Capital and news center of the State and in the center of the Great Northwest; its superiority to *IOWA* readers over all outside papers, giving as it does all the general news of the World that outside papers do and the *IOWA* news besides; its merits as a Literary and Political paper and its unexcelled Agricultural and Commercial Departments, make it the leading paper for the Farm, Office, Workshop and Family.

THE AGRICULTURAL DEPARTMENT is edited by our Mr. C. F. Clarkson; an *IOWA* farmer with 26 years experience on an *IOWA* farm, and his articles are always seasonable, making it confessedly the best agricultural paper in the Northwest. All other departments are complete, making it the best family *News* paper published.

LATEST NEWS.—*The Weekly Register* gives two days later news and markets each week, than the *Chicago Weeklies* do.

ADVERTISERS

will find *The Register* the best medium to reach the people of *IOWA* and the Northwest. *The Register* guarantee twice the number of subscribers of all the other twelve daily and weekly papers published in Des Moines combined.

DES MOINES and FT. DODGE RAILROAD.

**The Great Through Short Line from Des Moines to the North,
with its superb steel Rail Track and First-Class
Equipment Throughout,**

Is now completed and open to Ruthven, and in connection with the Chicago, Milwaukee & St. Paul Railway, forms the most direct and cheapest route to Northwest Iowa and Southern Dakota points.

**Spirit Lake Route--The route to Cheap Lands and
A Healthy Climate, and the Finest Farming and Stock
Raising Country in the World.**

**Through Trains from Des Moines to Minneapolis,
WITHOUT CHANGE,**

connecting with the St. Paul, Minneapolis & Manitoba, and the Northern Pacific Railway for Northern Minnesota, Dakota, Manitoba, and for all Montana points, this is the most direct and cheapest route.

Take the Des Moines & Fort Dodge Railroad,

For Perry, Grand Junction, Gowrie, Tory, Fort Dodge, Rolfe, Ruthven, Spirit Lake, Storm Lake, and Sioux City, Dubuque, Yankton, Minneapolis, St. Paul, Duluth, Winnipeg, Fargo, Crystal Spring, Bismarck, Miles City, Billings, Bozeman, Deer Lodge, Fort Benton, and for all points in the North and Northwest through tickets are sold.

GEO. W. OGILVIE,

Gen'l Pass'r and Ticket Ag't, Des Moines.

THE MINNEAPOLIS & ST. LOUIS R. R.

Is the ONLY DIRECT ROUTE, Without Change of Cars, for

MINNEAPOLIS and ST. PAUL

And the Great Summer Resorts of the Northwest,

Lake Minnetonka and White Bear Lake!

Trains leave from the D. M. & Ft. D. R. R. depot, arriving at Minneapolis, making direct connections with the St. Paul, Minn., & Manitoba, and the Northern Pacific R'ys for

NORTH DAKOTA, MINNESOTA, MONTANA and MANITOBA.

**Devil's Lake, Turtle Mountain, Mouse River; also
Valleys of the Yellowstone and Red River.**

THE SHORT LINE.

The use of the term "Short Line" conveys an idea of just what is required by the traveling public—a **SHORT LINE**, **QUICK TIME** and the **BEST** of accommodations, all of which are furnished by the

**Wisconsin,
Iowa and
Nebraska R'y.**

It naturally answers the description of **SHORT LINE**, and best Route between **Cedar Falls, Waterloo, Reinbeck, Gladbrook, Marshalltown and Des Moines**, making close connection at **Reinbeck** with the **B., C. R. & N.**, also at **Marshalltown** with the **Chicago & Northwestern Railway**, and **Central Iowa Railway**, and at **Des Moines** with roads diverging East, West and South.

GEO. C. McMICHAEL, Superintendent.

WILLARD T. BLOCK Gen. Freight and Pass. Agent, Marshalltown, Iowa.

W. C. MARTIN, Agent, Des Moines, Iowa.
